1. About Roomba TV Application

The Roomba TV application is designed for Android TV devices, it can be installed on any Android TV with an internet connection. Our amazing streaming service has Live TV channels, Latest Movies and Series to choose from.

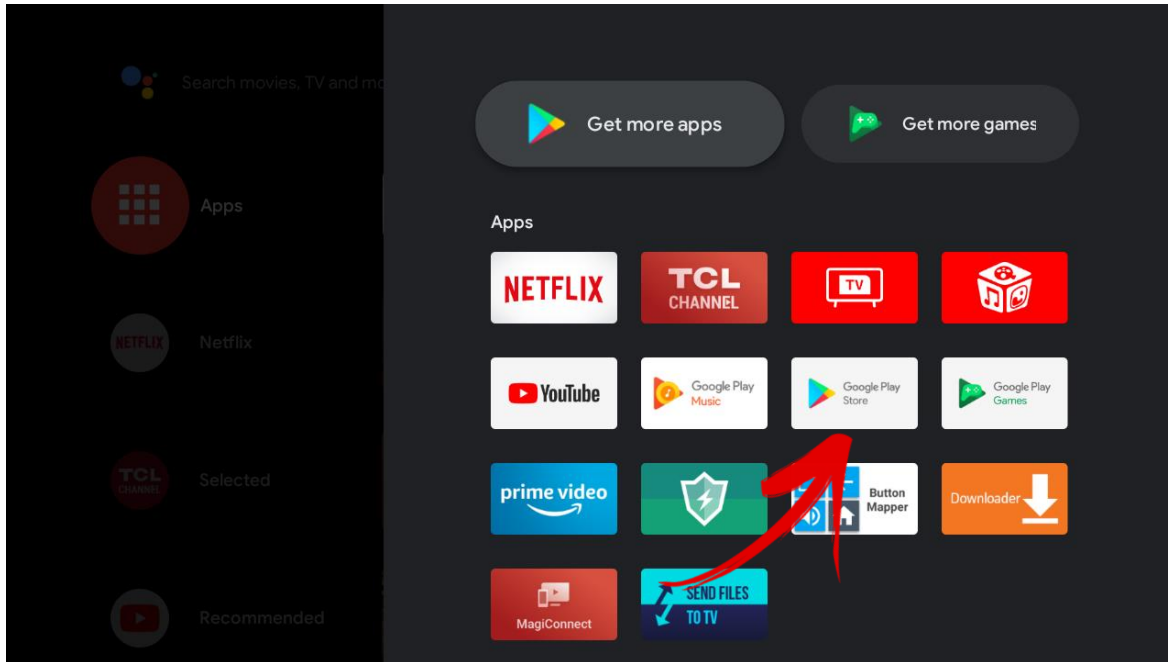

Roomba TV has an intuitive and easy to use user interface that lets you stream your preferred content from popular platforms, including Netflix or Amazon Prime Video in all the places that matter most. Whether at home on Android TV that's been set up right next to where you sit, providing you options for viewing delivered program's in HD, FHD and UHD qualities depending upon your preference.

2. Installation

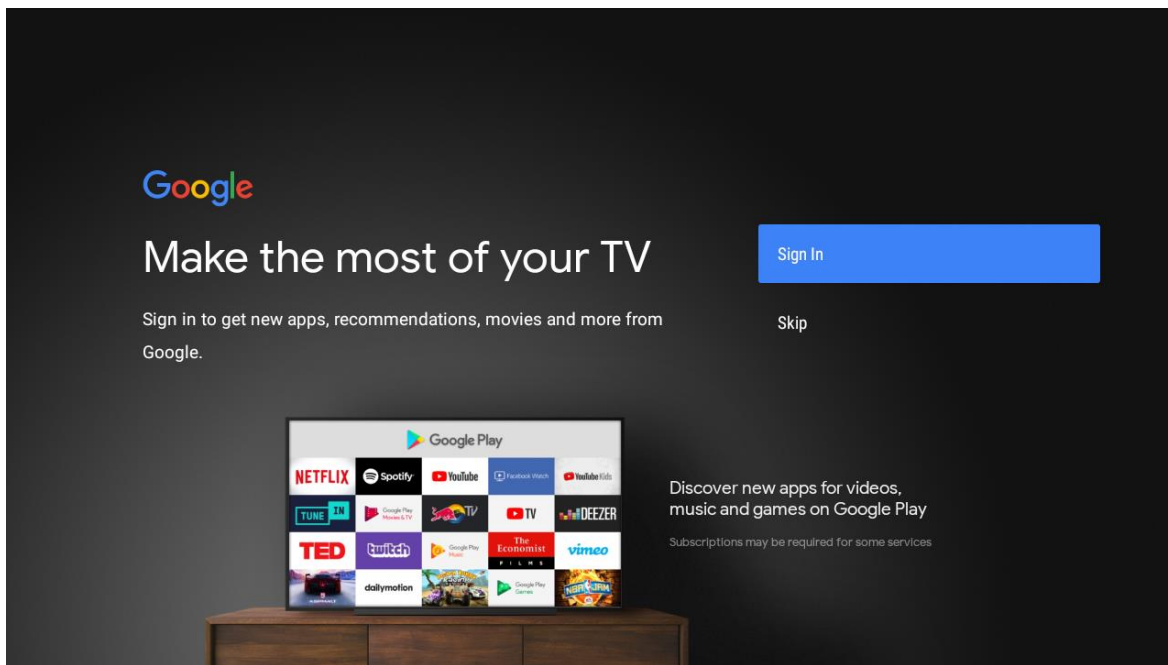

1. Turn on your android TV. Click on The **Apps** icon of your android TV and go to Google Play Store.

2. Now, open the Google Play Store from the apps given below.

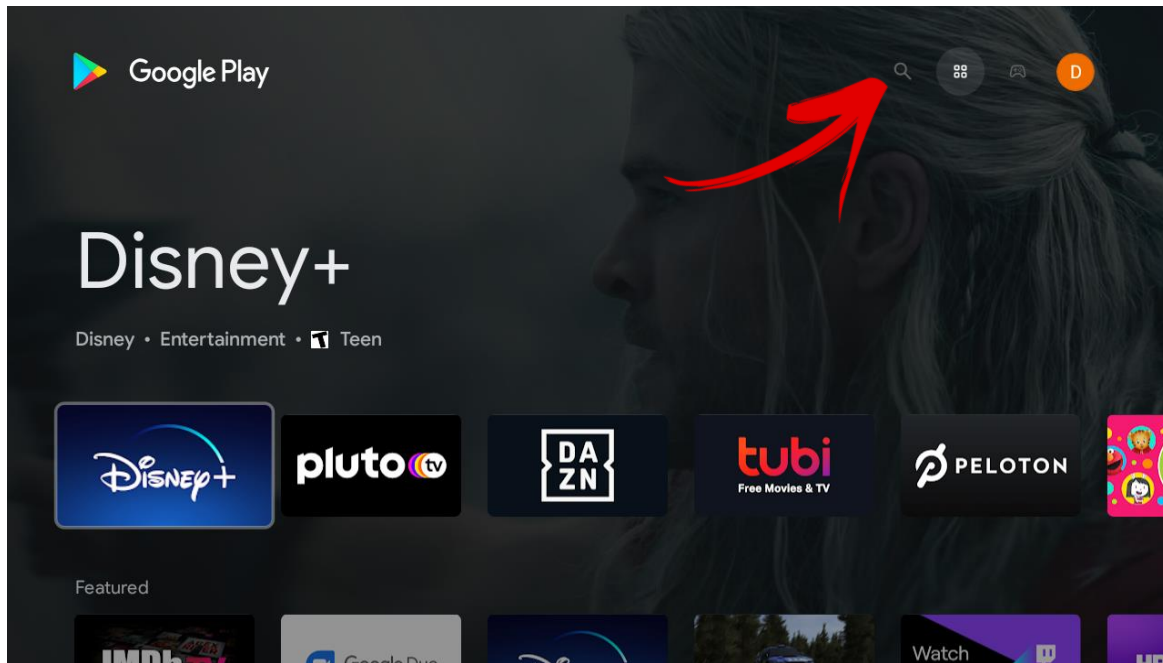

3. After Clicking it will take you to the **Sign-in** interface of the Google Play Store, sign in with your Google Account and Press ok. Now your Android TV has been set up with your Account.

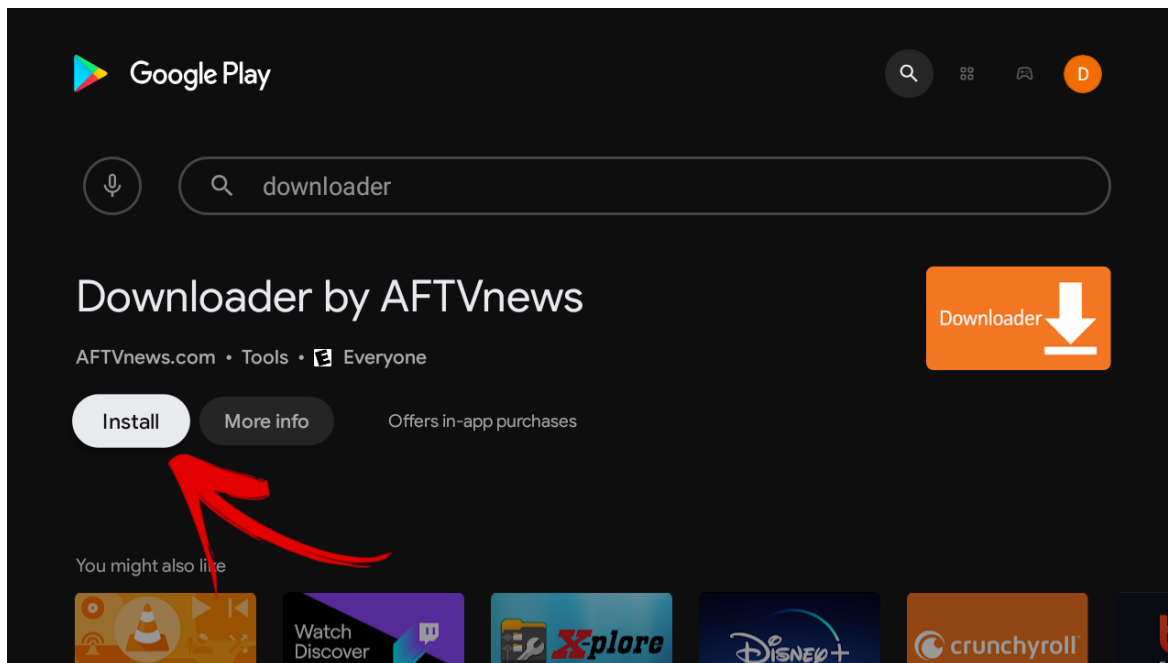

Note: If you have already login to your Google play store than there is no need to follow the above step. Just open Google play and search Downloader.

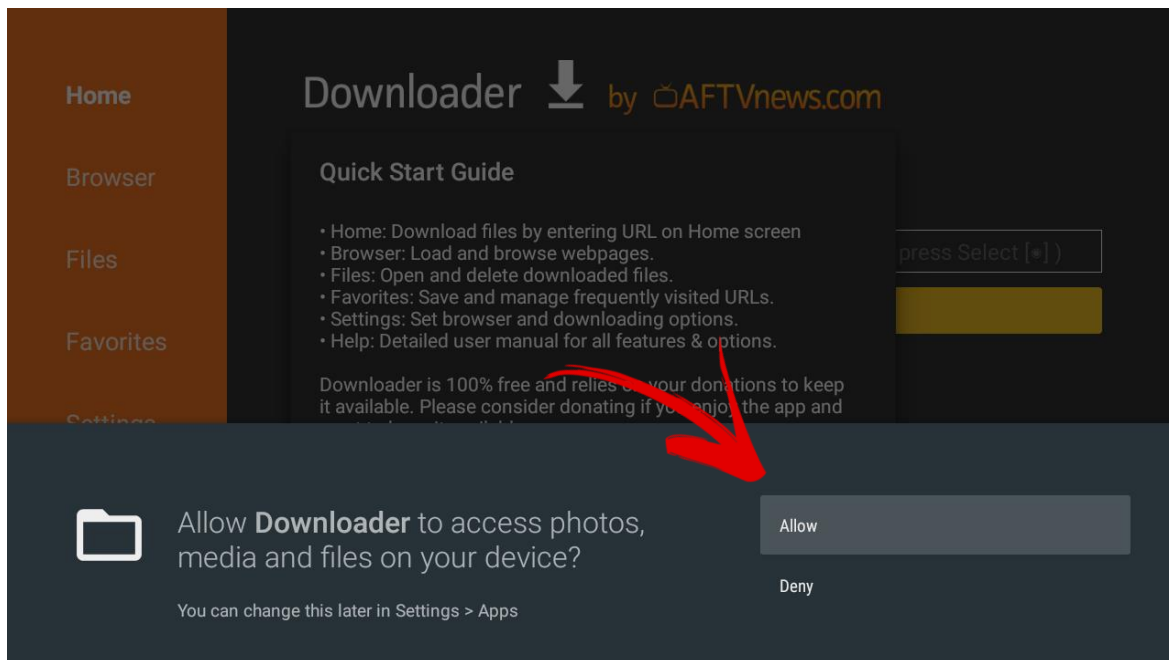

- Now click the **search icon** and type **Downloader** in the Search bar, it will show you the **Downloader by AFTV News** application.

- Hit **Install** and wait for the Installation process to finish.

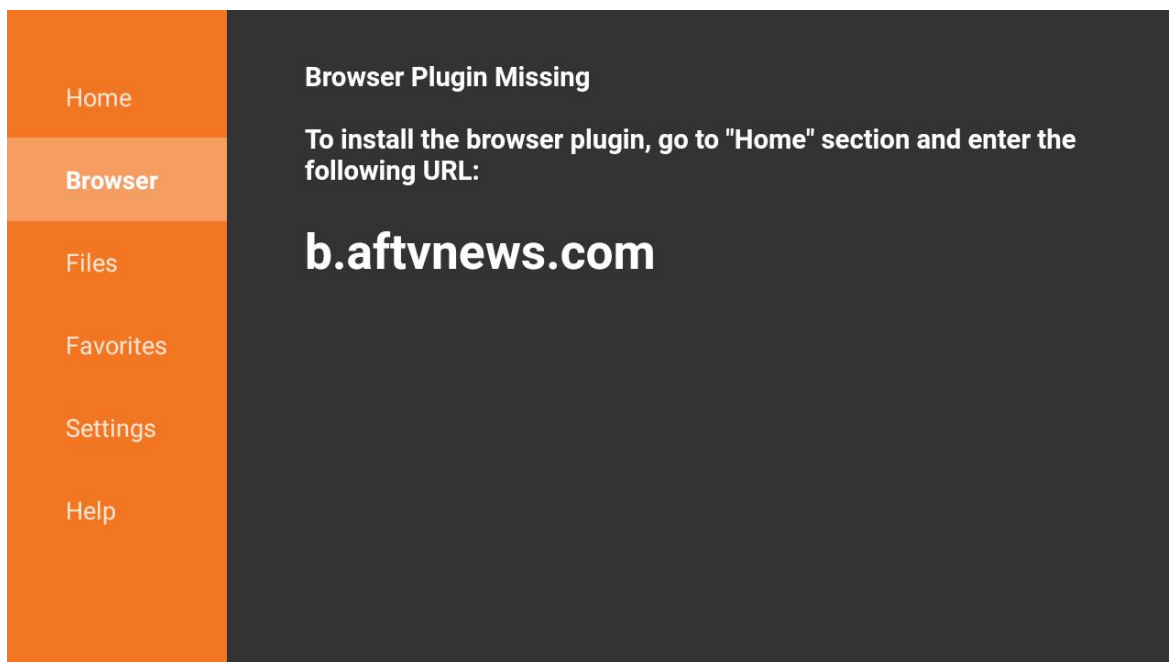

- When Installation is finished open the Downloader and allow it to access files and media on your device.

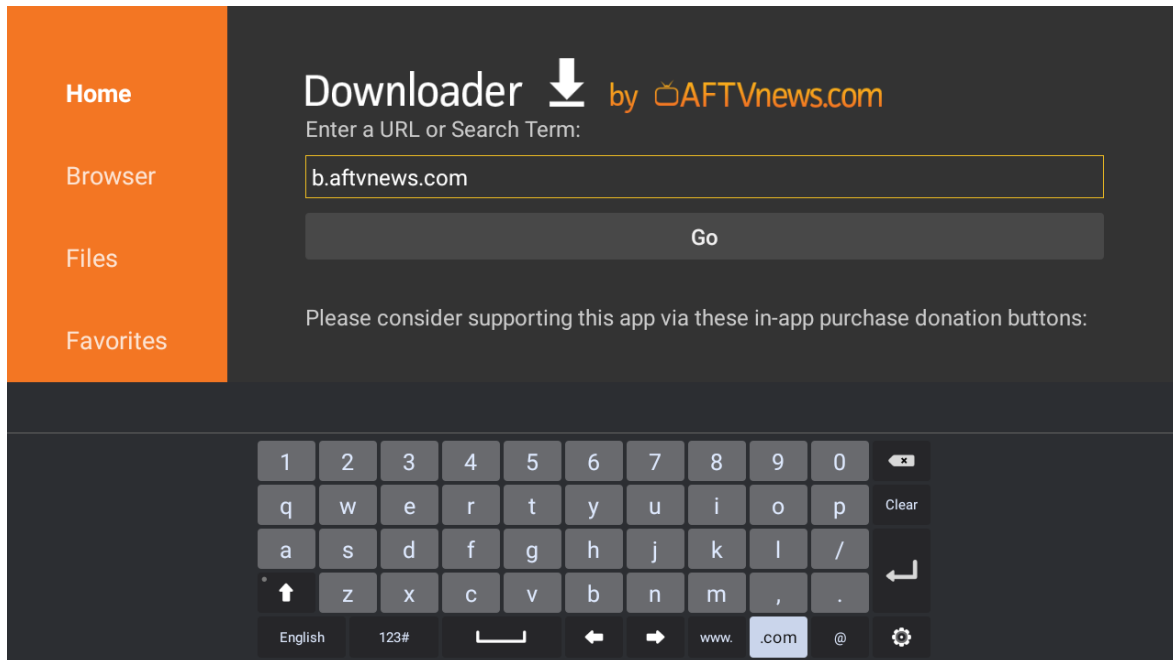

- Now you have to install the Browser plug-in inside the Downloader app, this will let you connect to our site, download the Roomba TV software and install it in your Android TV.

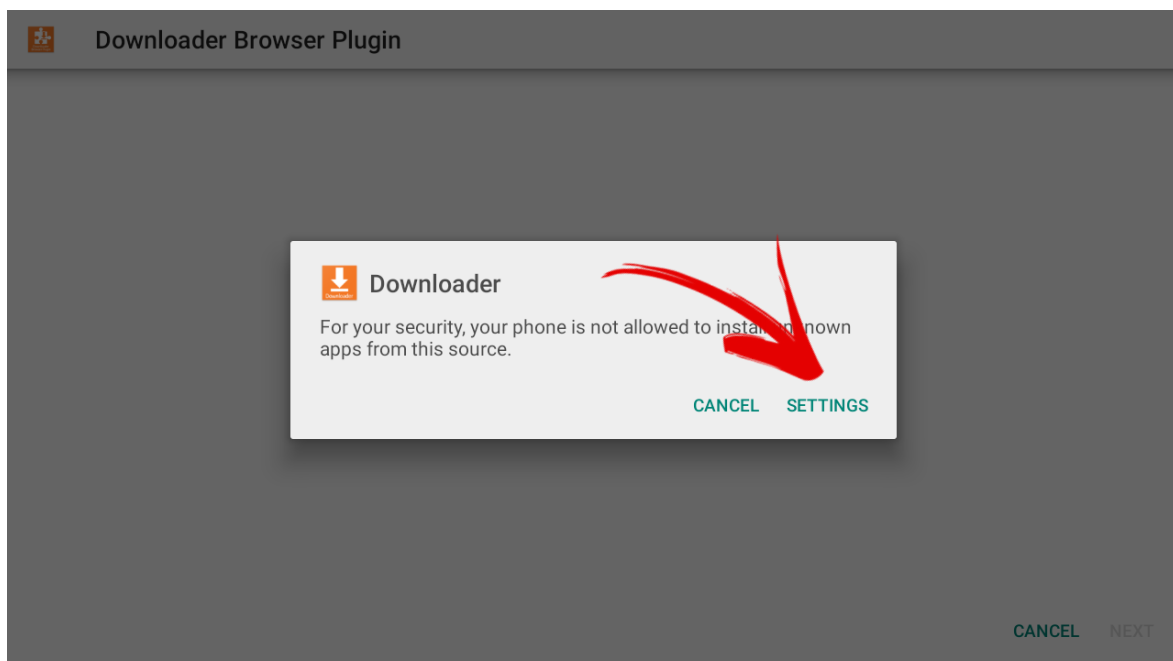

For this purpose, at the Browser tab of the Downloader app, copy the URL **“b.aftvnews.com”**

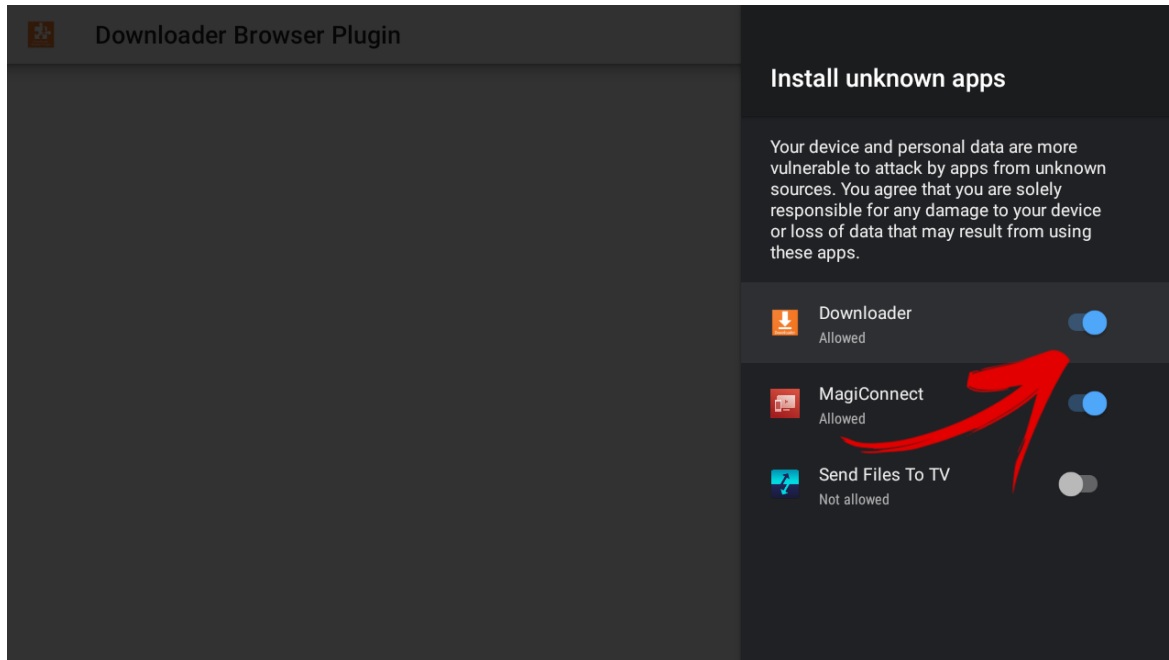

Now go to the Home tab of the Downloader app and paste the link in the Home screen search bar. If you don't know how to paste, you can just write it manually.

8. After hitting enter, a **Pop-up** will appear saying **“Your Device is not allowed to install unknown app from this source”**. To resolve this, click on Settings.

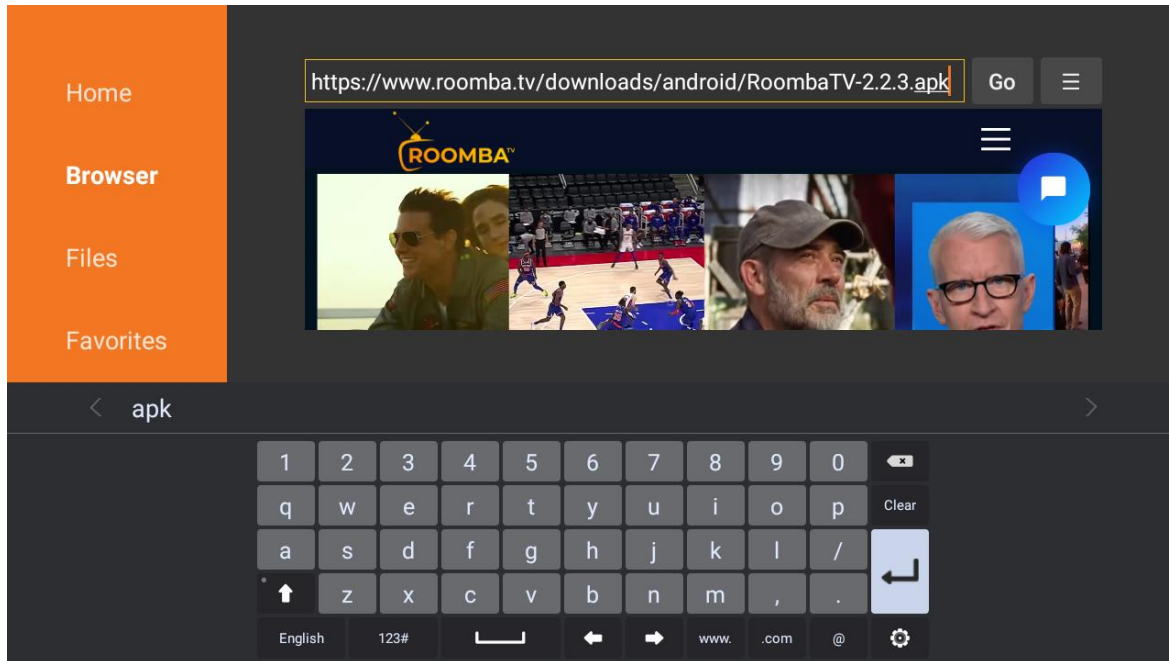

9. After clicking on Settings, **allow** the Downloader to install Unknown apps. If you see a message stating unknown source apps may harm your device, no worries. This message usually comes up when you install an software outside Playstore. Since you are downloading the app from the official Roomba TV website you can skip this.

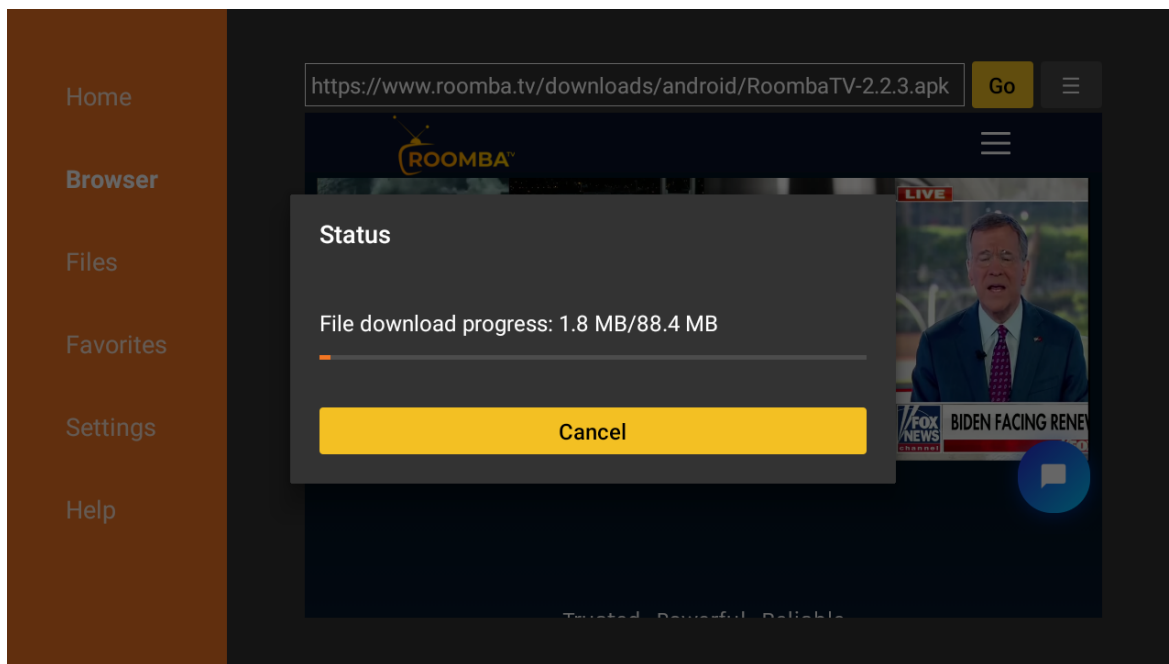

10. Your browser plug-in has been installed in the downloader, now go back to the **Address Bar** and paste the following link and hit Search.

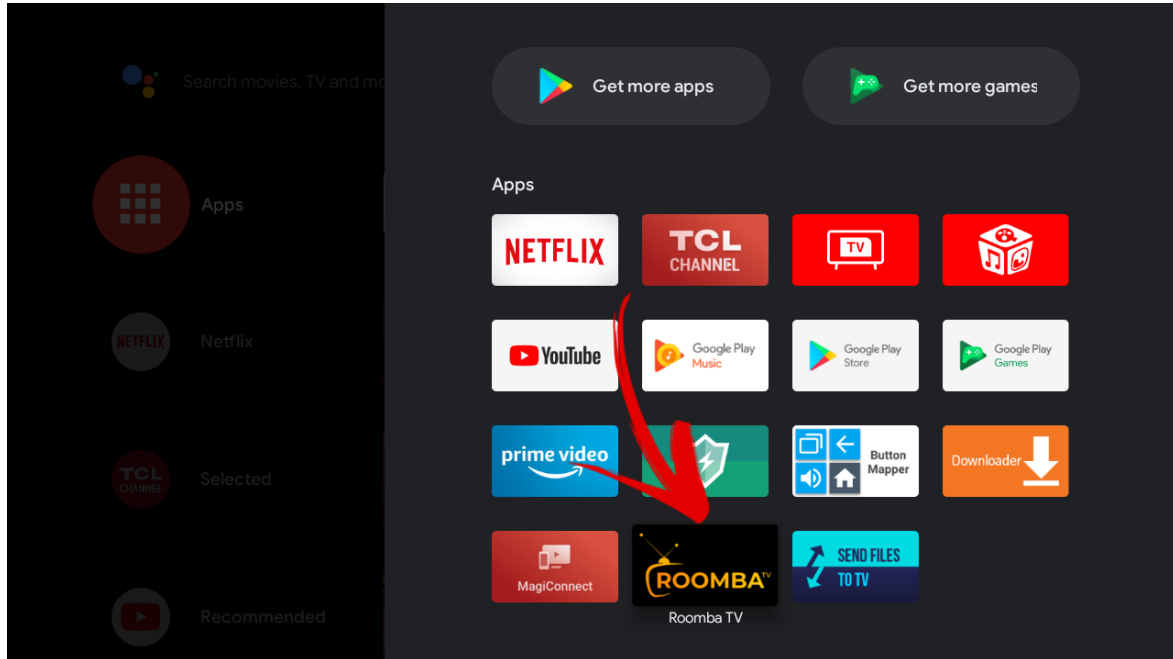

<https://www.roomba.tv/downloads/android/RoombaTV-2.2.3.apk>

11. This will download and install the Roomba TV application in you Android TV.

12. The **Shortcut** of the Roomba TV will be created in the Apps section in the Home Screen of your Android TV. Just go to the apps and click the Roomba TV icon to open the application.

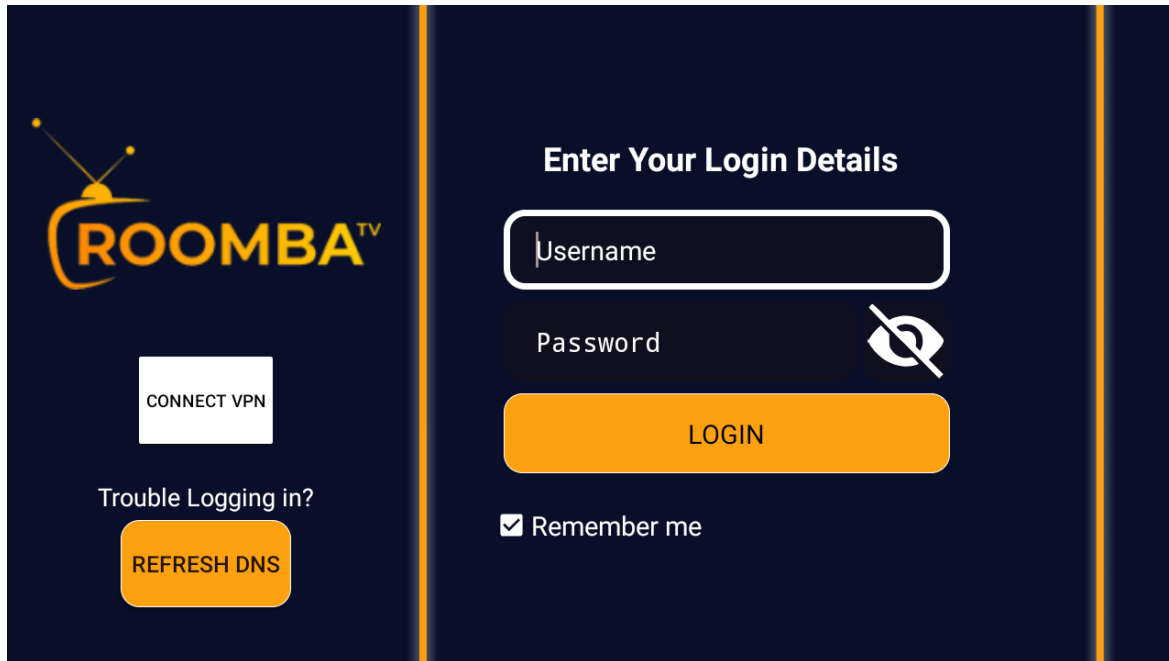

3. Roomba TV Login Interface

The two options that you can set before logging in to the platform are as follows:

- Connect VPN
- Refresh DNS

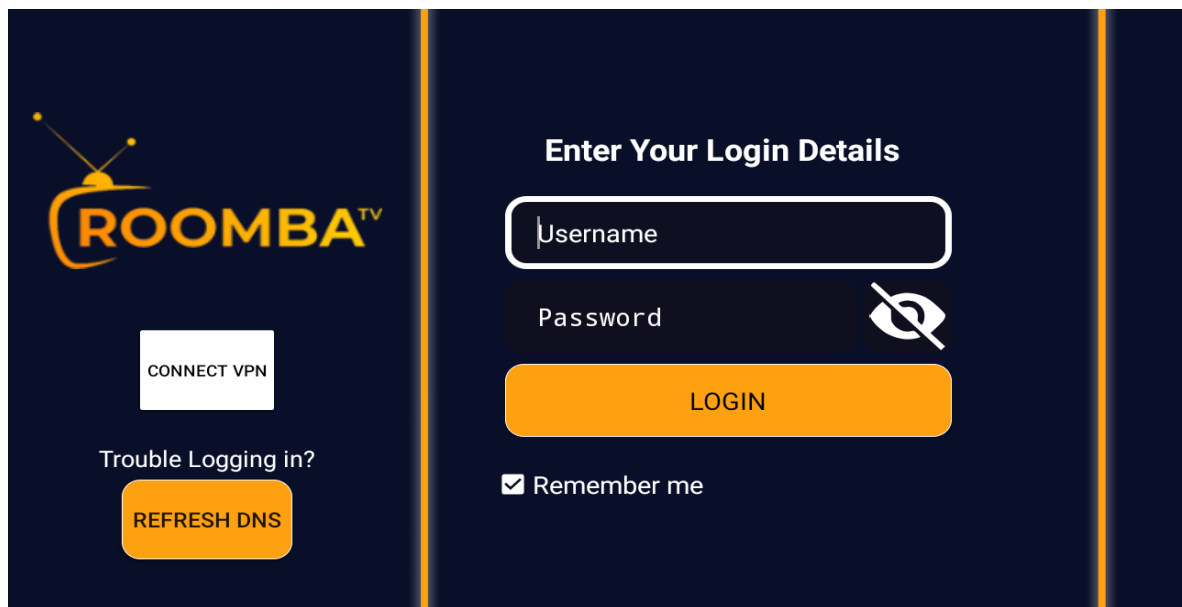

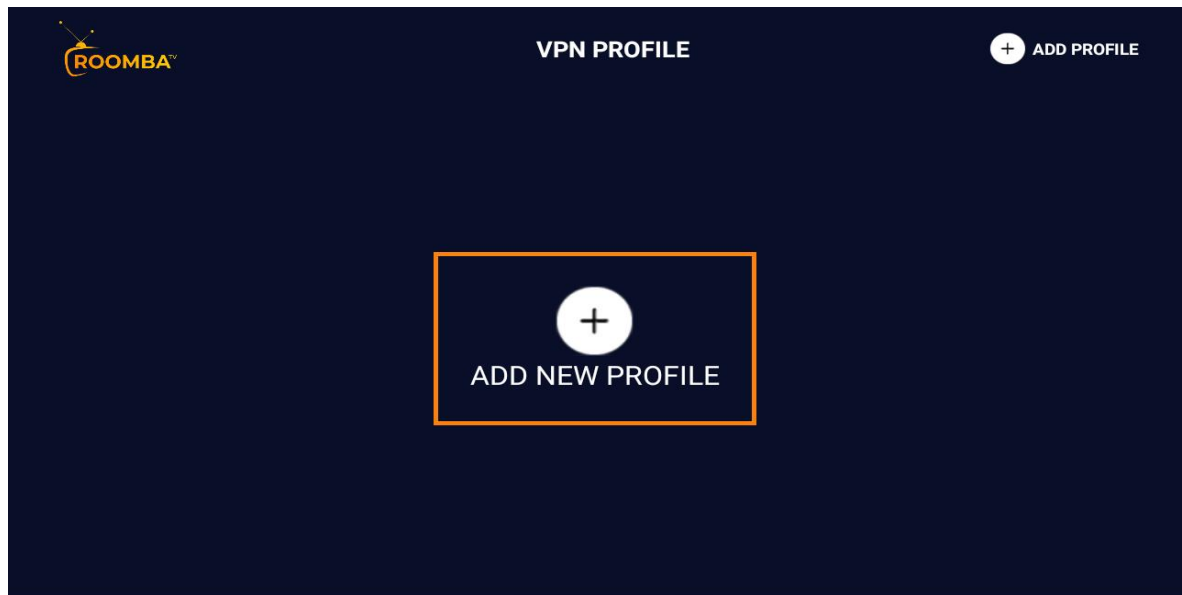

3.1 OPTIONAL - Connect VPN (Virtual Private Network)

Our VPN option is a great choice when for example your ISP is preventing you to watch IPTV. Using this option will allow you establish an encrypted connection from your internet to our Platform bypassing ISP restrictions. We don't recommend using a VPN connection if you don't face connectivity issues to our platform. If you don't face any connectivity issues, please go to Page 14.

1. Tap the following button to connect to a VPN.

2. Tap the (+) button to add a new profile.

3. There are two 2 ways to add your VPN certificate file:

- **URL**

Use this option if you would like to add the certificate file via inserting your certificate URL. Tap the **IMPORT** button once done.

- **FILE**

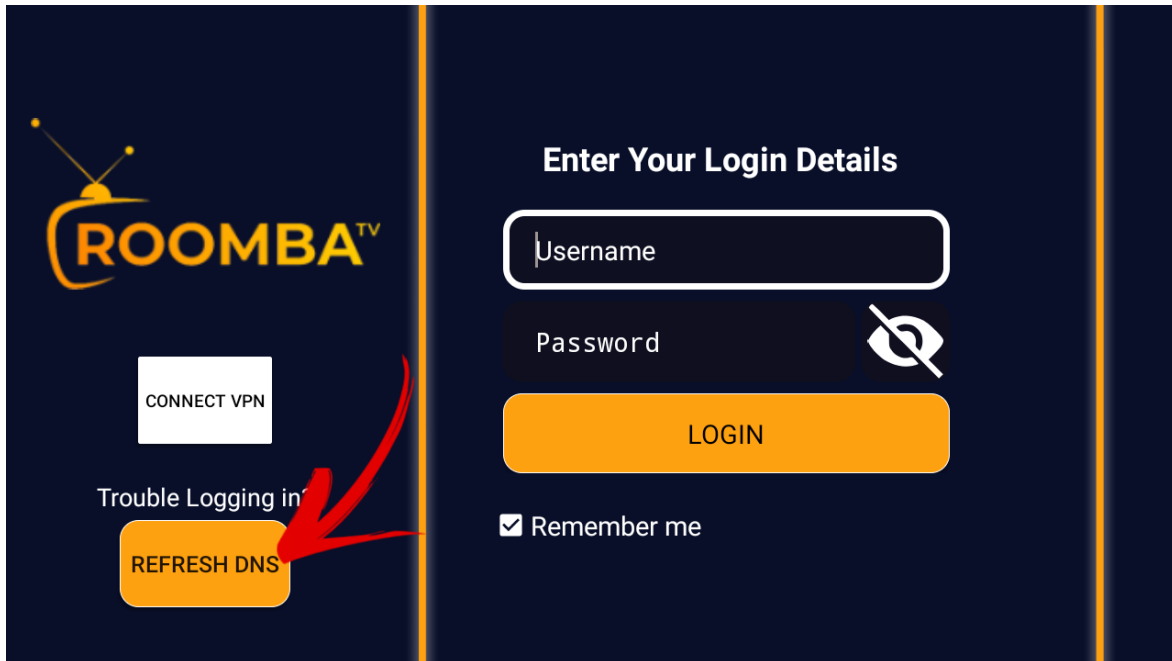

Use this option if you would like to locate your certificate file from the internal storage of your mobile device. Tap the **BROWSE** button to locate the file.

3.2 OPTIONAL - Refresh DNS (Domain Name System)

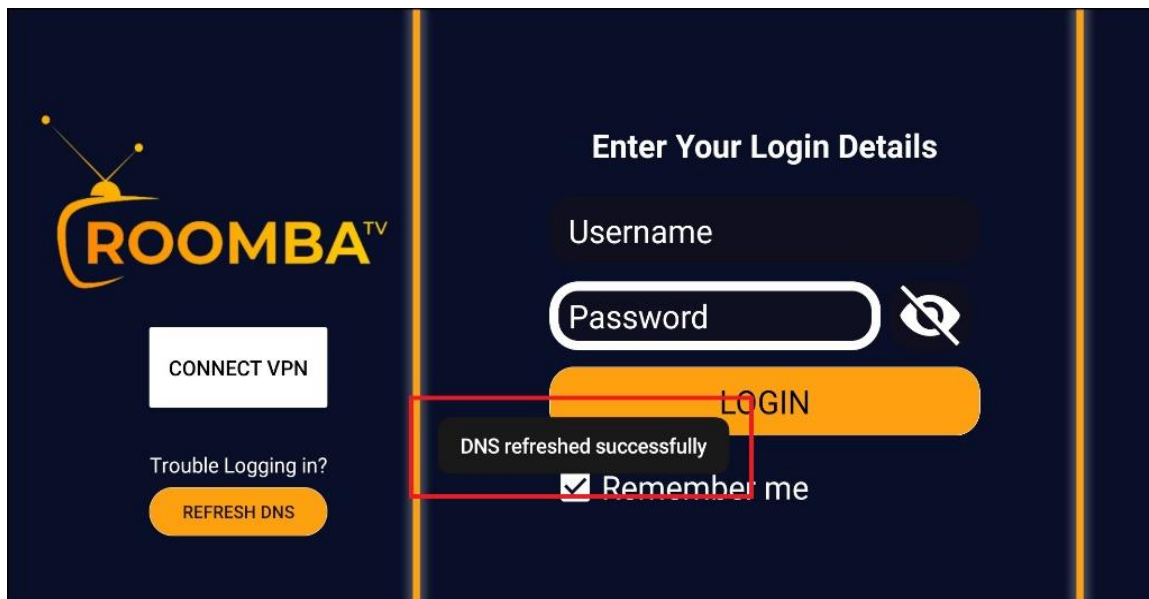

Clearing your DNS will help you to avoid any problems with internet connectivity and security.

You can use this option if the IP addresses or other cached information is causing trouble for logging in, as well as refreshing it so that all of a sudden everything works smoothly again!

1. Tap the following button to **refresh DNS**.

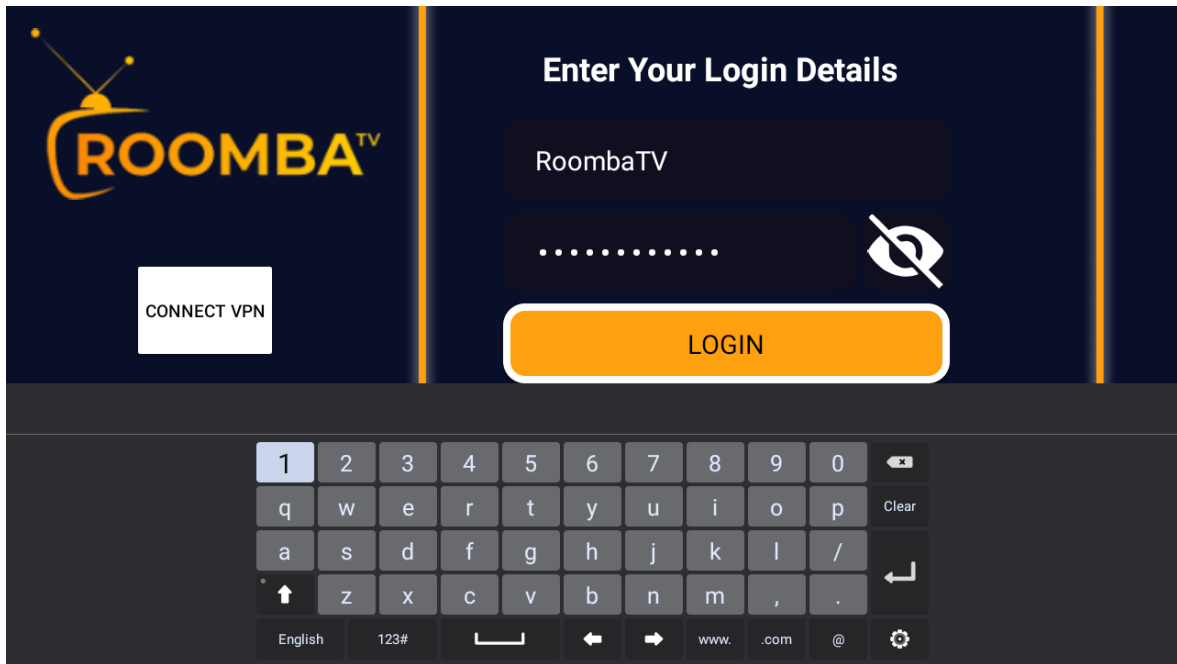

2. A pop-up message 'DNS refreshed successfully' will be displayed afterward.

NOTE: The settings above are optional. You may proceed to log in right after opening the Roomba TV application, and only use these settings **if necessary**.

3.3 Roomba TV Login

Enter your account Username and Password, and then tap the button to log in.

Logging in for the first time can be an exciting and overwhelming experience. Upon logging in, we will download all of our platform components (i.e., Live Channels, TV Guide, Movies and Series) which may take a little bit depending on your network bandwidth and the amount of Content you have selected during the purchase process. Once this process finishes all our platform content will be at your fingertips!

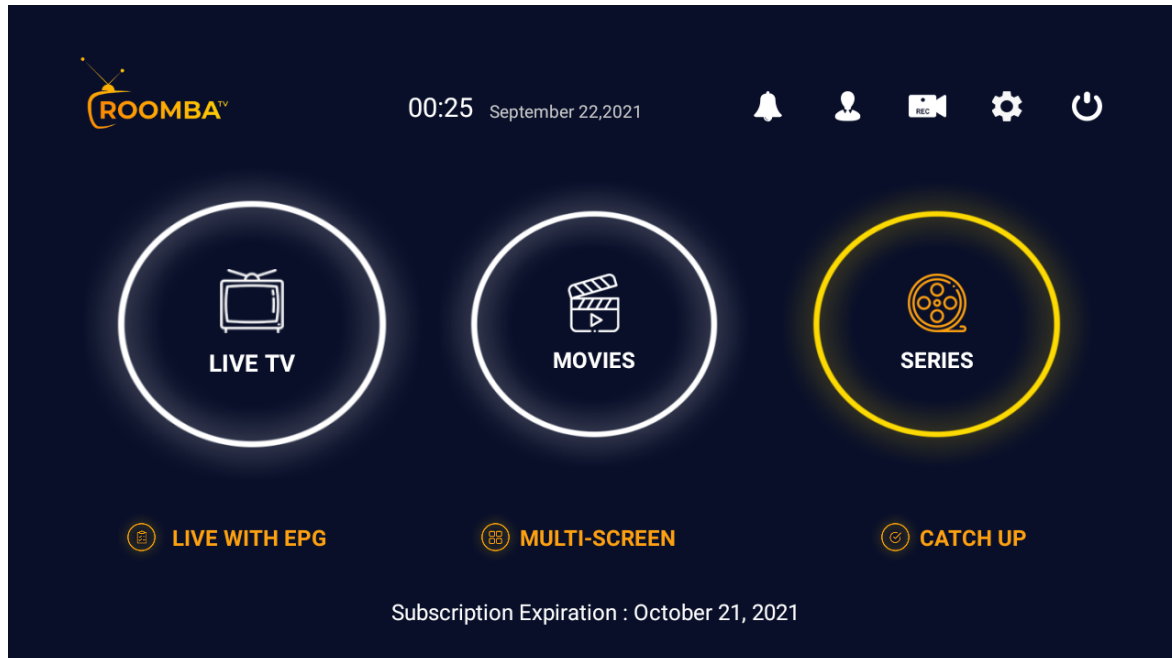

Please wait, while we are getting things ready for the first time

Downloading Channels, Movies and Series

After the application components are downloaded, the Roomba TV main menu will be Displayed.

4. Roomba TV Main Menu

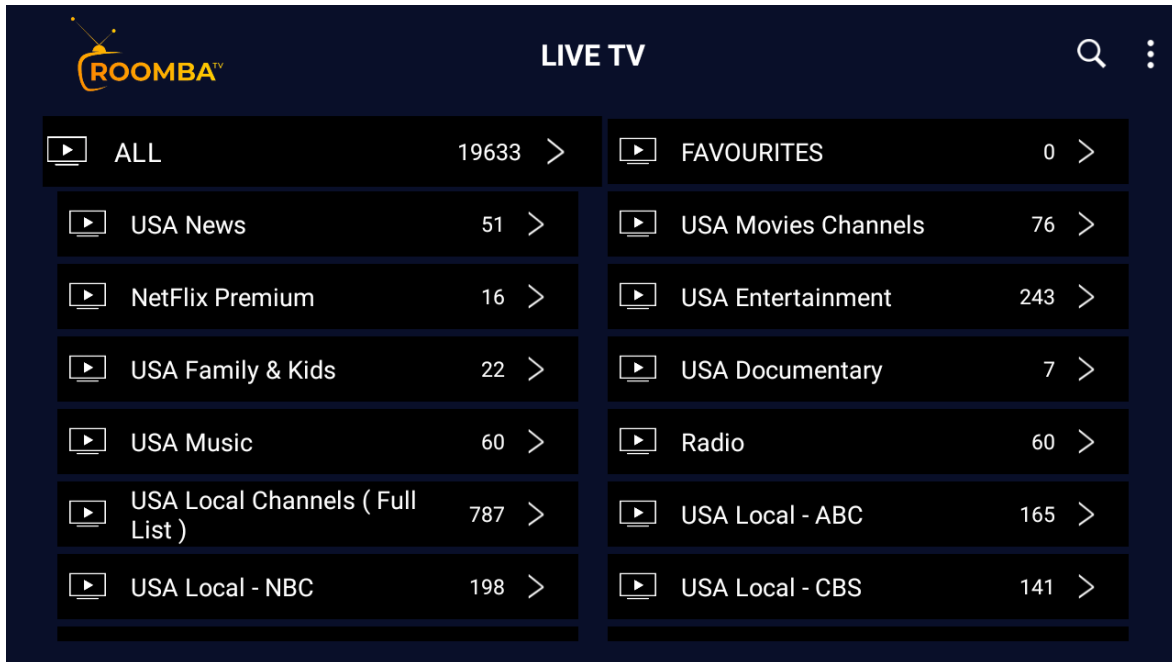

The application consists of the following buttons and information:

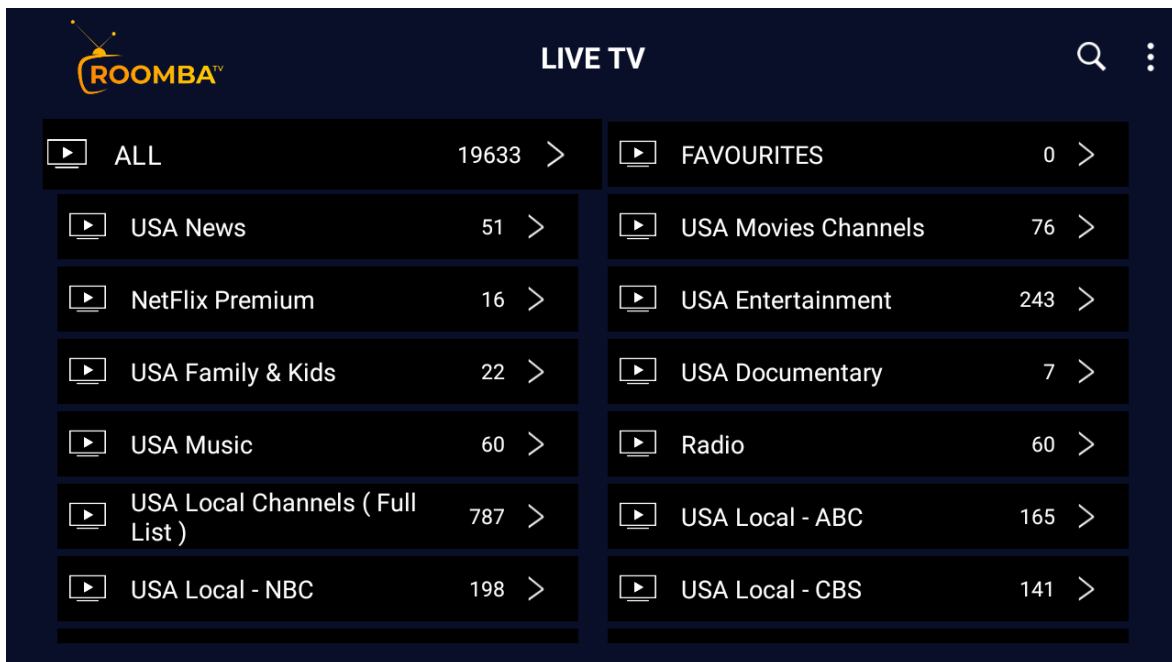

- ▶ Date and Time
- ▶ Notifications
- ▶ Account Info
- ▶ Recordings
- ▶ Settings
- ▶ Logout
- ▶ Live TV
- ▶ Movies
- ▶ Series
- ▶ Live With EPG (Electronic Program Guide)
- ▶ Multi-screen
- ▶ Catch Up
- ▶ Subscription Expiration

4.1 Live TV

To access the Live TV channels, tap the **LIVE TV** button from the main menu. It will bring up a list of all the available Live TV categories: News channels, Movies channels, Kids channels, etc.

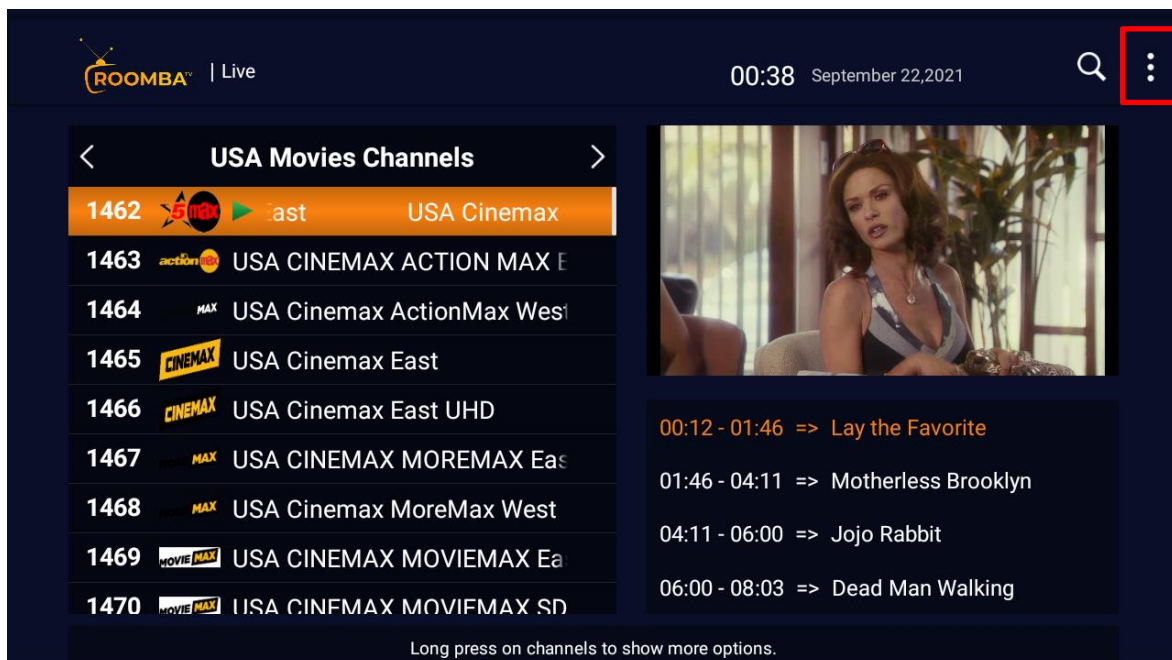

To stream and watch a channel, tap on the desired channel category.

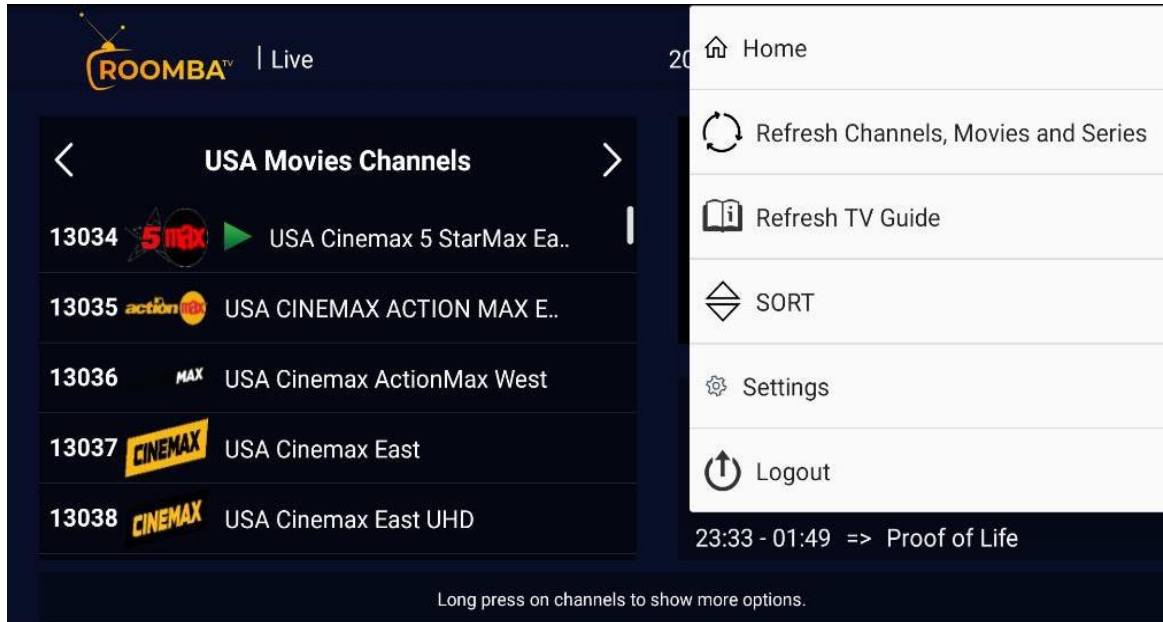

The first channel on the list will automatically play by default.

To see the other options, tap the three dots button at the top of the video player.

The following options will pop-up.

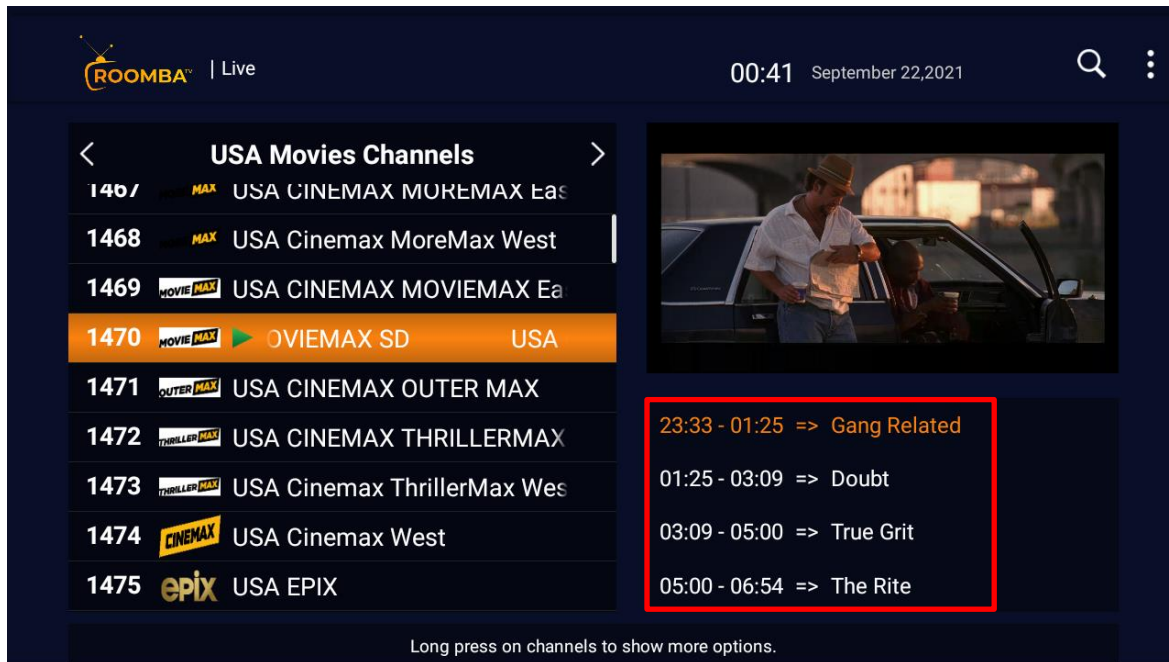

- **Home** – tapping this option will take you back to the Roomba TV mainmenu
- **Refresh Channels, Movies and Series** – this option will update the application components (i.e., TV channels, movies, and series)
- **Refresh TV Guide** – this option will update the EPG
- **Sort** – this option allows you to sort the TV channels according to the following order types:

Default	Z-A
Top Added	Channel Number ASC (Ascending order)
A-Z	Channel Number DESC (Descending order)

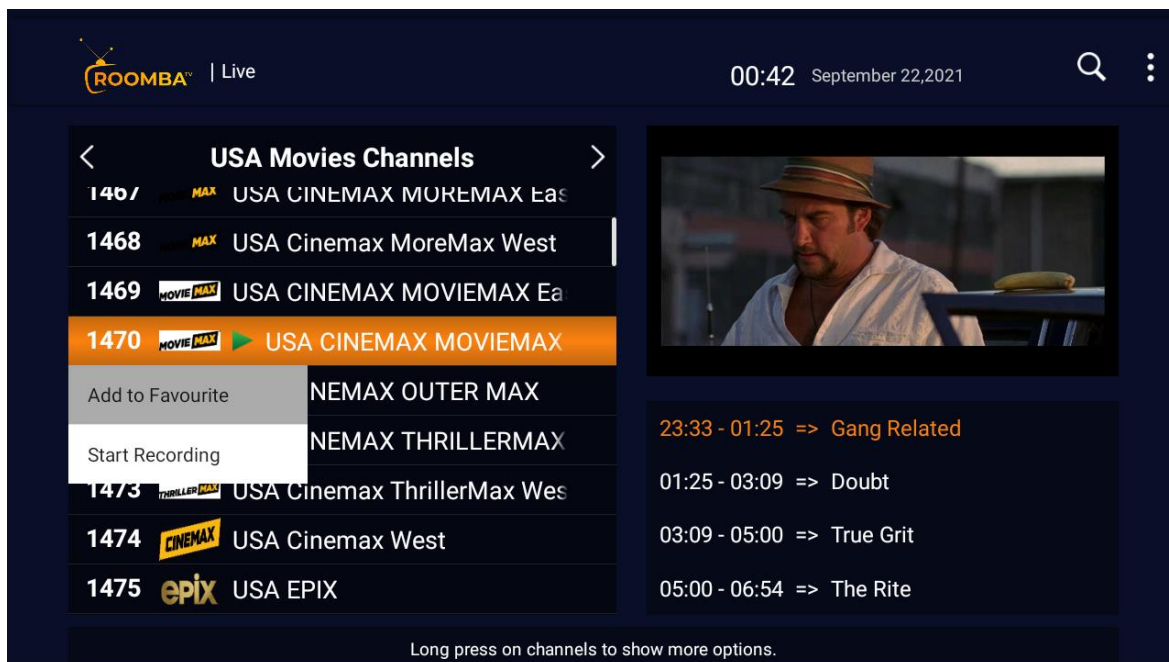

- **Settings** – tapping this option will take you to the **setting** menu of the application
- **Logout** – tap this option if you would like to log out of the application, then tap **YES** to confirm

If a playing channel has an **EPG** available, it will be displayed at the bottom of the video player.

This option enables you to view the scheduling information for past, current, and upcoming TV programs for various channels.

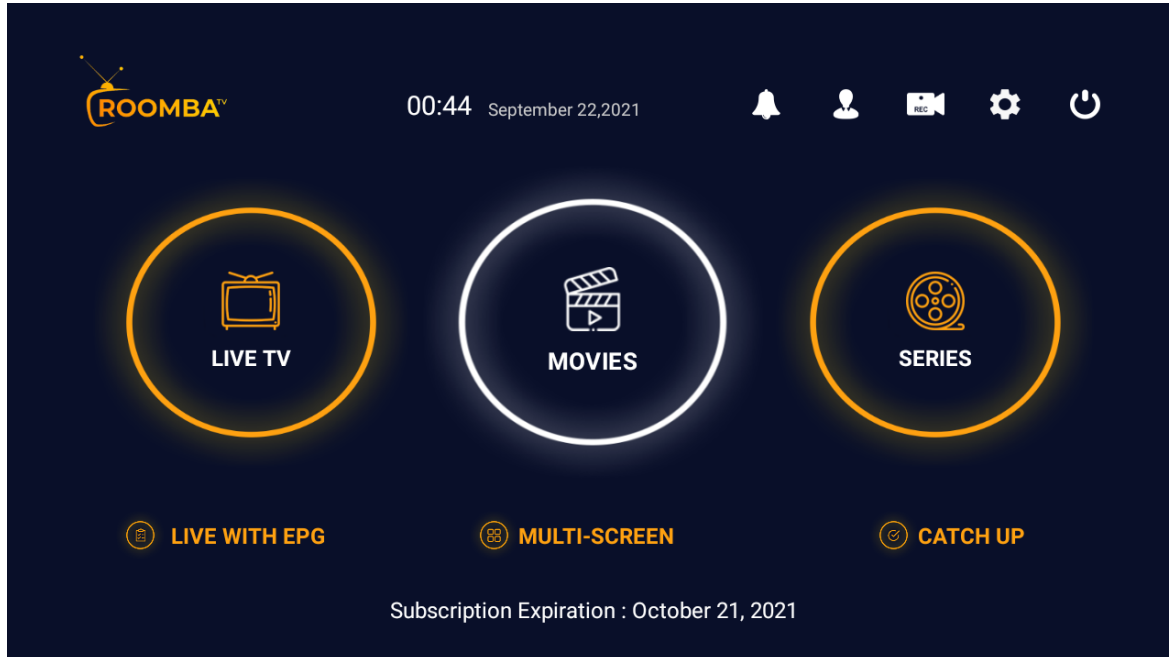

If you long-press on a specific channel, two additional options will pop-up.

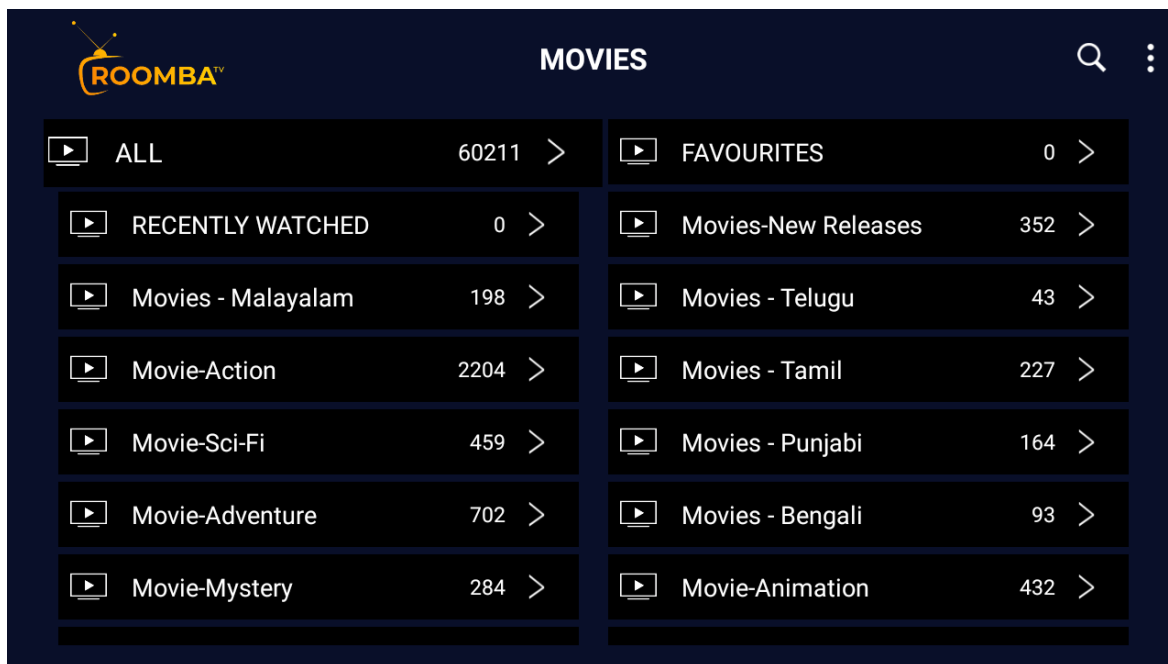

Add to Favourite – tapping this option will allow you to save a channel and add it to the favorites list.

4.2 Movies

To watch a movie, tap the **MOVIES** button from the main menu.

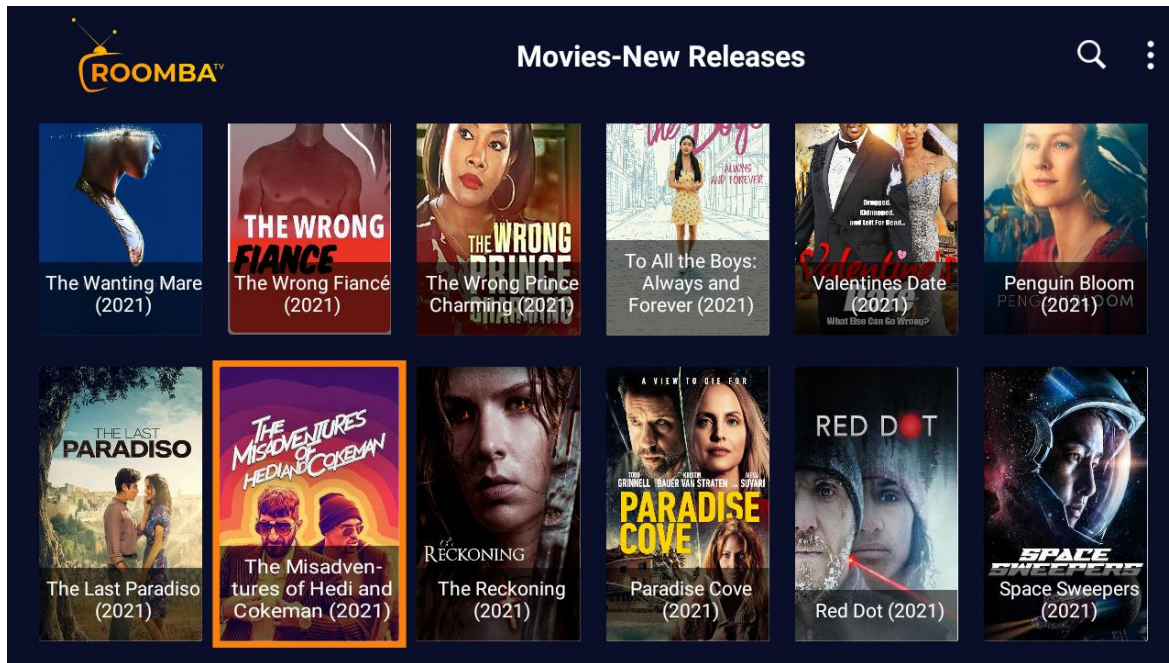

You will see the category list of all the available movie genres. Select from the available movies that you would like to watch.

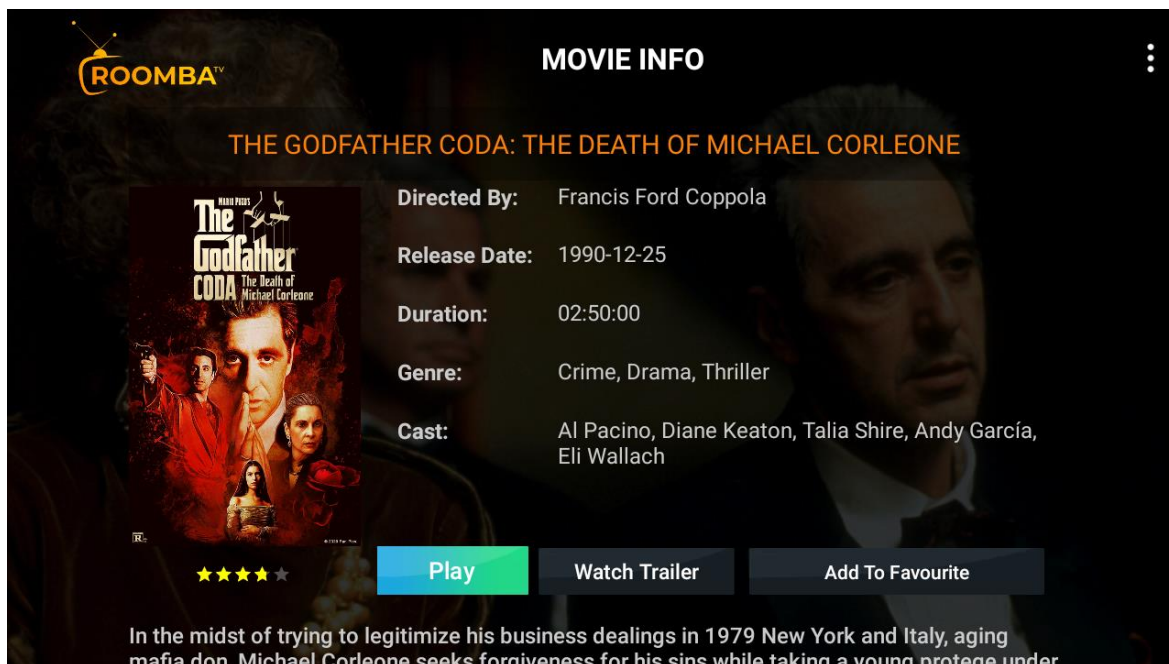

Your movie viewing experience just got better! The categories are limitless and the selection is vast. You'll now have access to all sorts of movies, be it action-adventures or romantic comedies: there's something for everyone here at Roomba TV.

You can watch one episode after another without having any pesky work obligations slowing down enjoyment time on those days when life gets too stressful.

Select and tap a movie from the list to access the movie information.

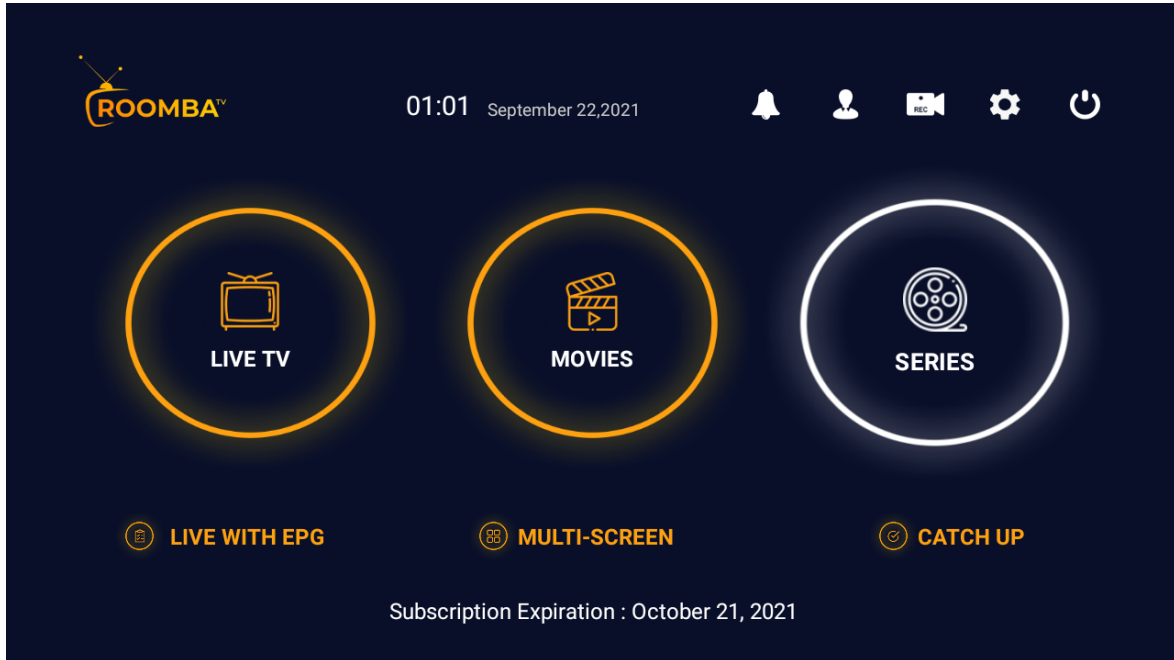

Watch Trailer – tapping this option will play the trailer of the movie.

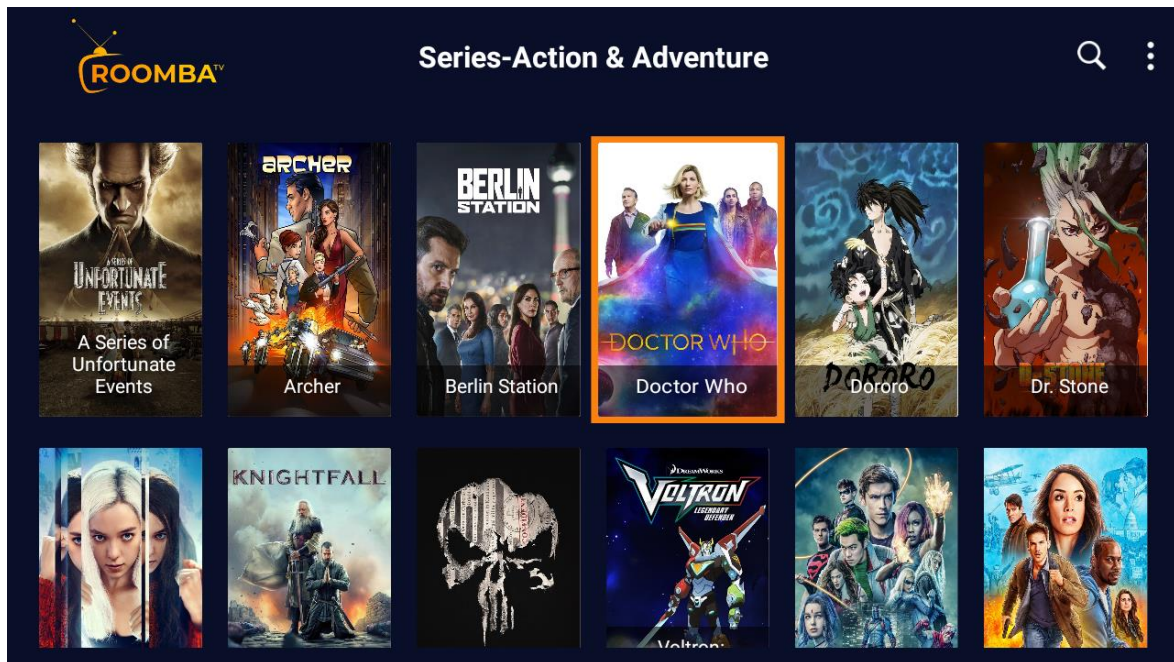

4.3 Series

To watch a series, tap the **SERIES** button from the main menu.

You will see the category list of all the available TV series by genre (i.e., documentary, drama, history, action, comedy, etc.).

Select and tap a series from the list to access the series information.

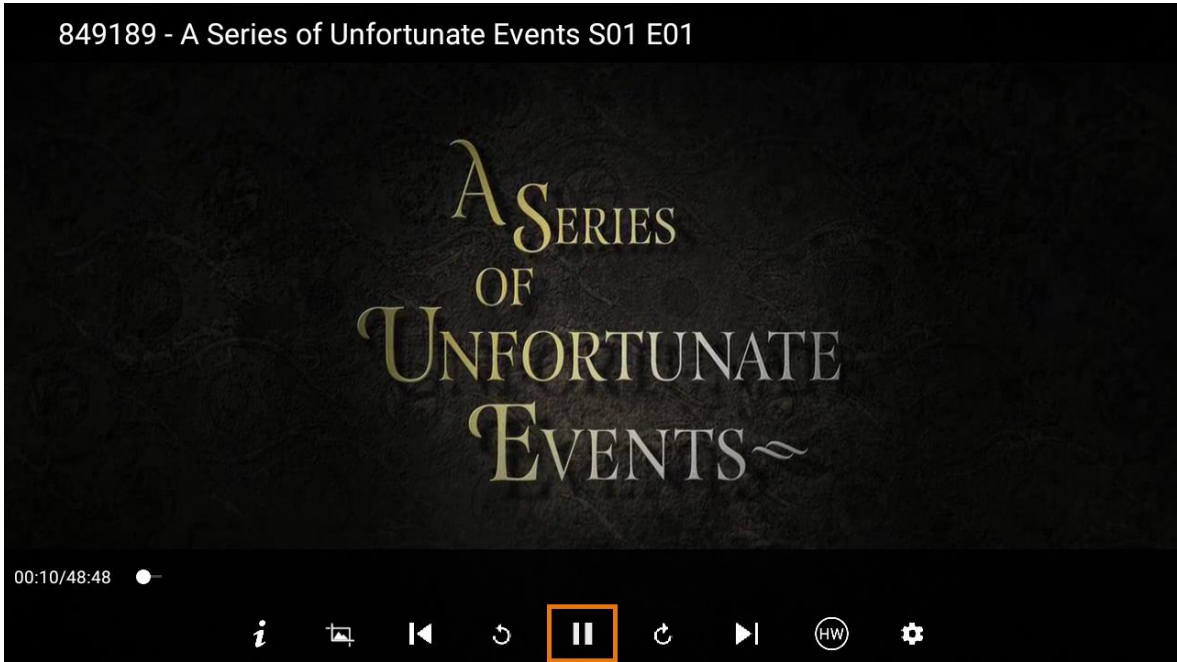

The screenshot shows the 'SERIES INFO' page for 'A Series of Unfortunate Events' on the ROOMBA TV interface. The page features a dark blue background with the ROOMBA TV logo in the top left. The series title is displayed in orange text. Below the title is a poster image of the series. To the right of the poster, the following information is listed:

- Directed By:** N/A
- Release Date:** 2017-01-13
- Genre:** Action & Adventure, Family, Comedy
- Plot:** The orphaned Baudelaire children face trials, tribulations and the evil Count Olaf, all in their quest to uncover the secret of their parents'

Below the poster, there is a rating of four stars (four yellow stars and one grey star). At the bottom of the page, there are four buttons: 'Watch Trailer', 'Episodes', 'Seasons' (highlighted in orange), and 'Add to Favourite'.

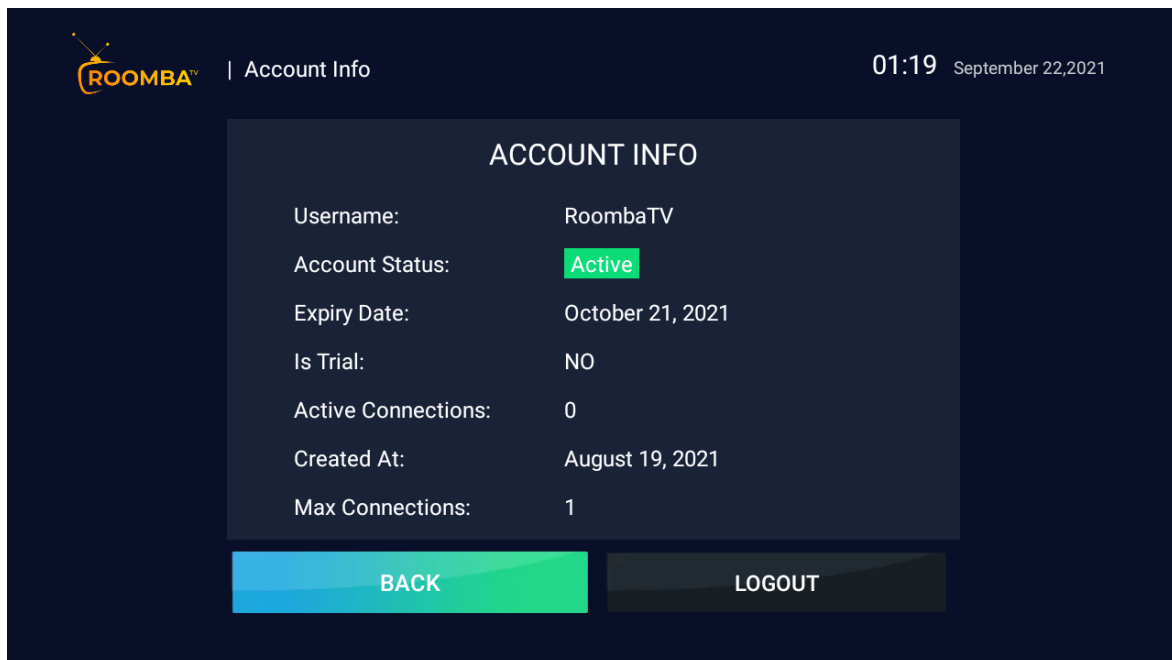

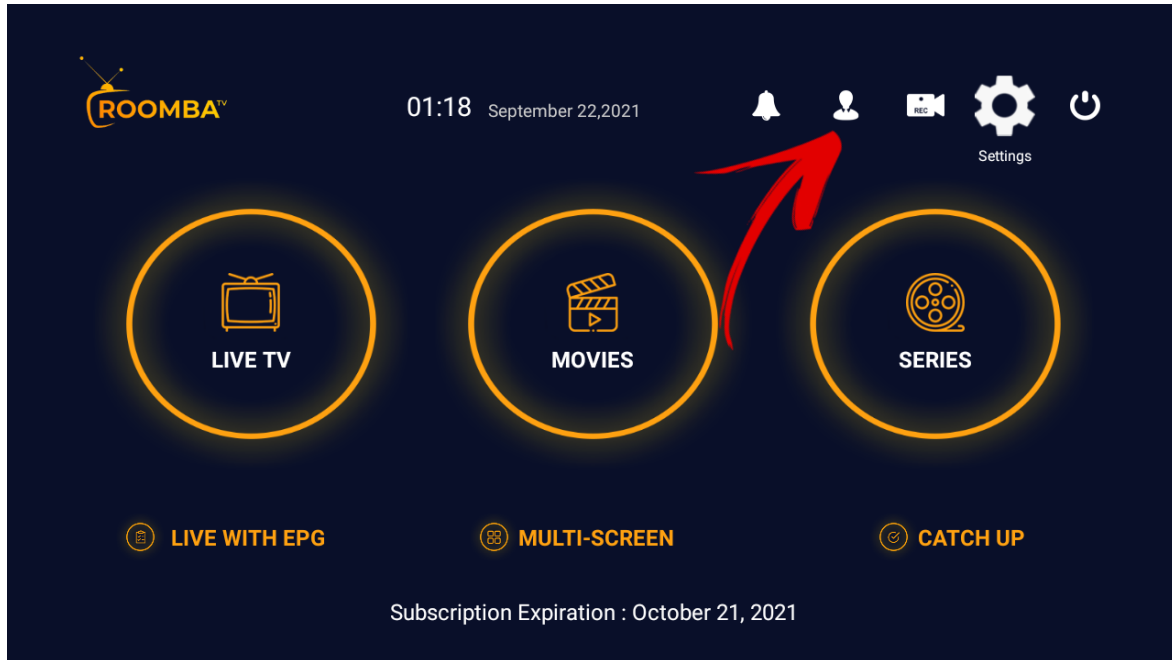

With the latest seasons of Netflix available, it's time to find out what you've been missing. Just by browsing this option will show all episodes from each series as well as give a brief overview on how long each season is and which one has HD quality for watching at its best!

5. Account Info

This option will provide you the following information about your account. Here are a few things you should know

- Username – The username you used when setting up your account.
- Account Status – The current status of your subscription.
- Expiry Date – The expiration date of your subscription.
- Is Trial – Your account subscription type.
- Active Connections – The number of current active connections on your account.
- Created At – The creation date of your account.
- Max connections – The maximum number of connection(s) that is allowed within your account.
