Introduction

[Roomba TV](#) is the world's largest and most reliable IPTV/OTT streaming platform, delivering nearly 3000 TB in streaming content per month to thousands of customers around the globe.

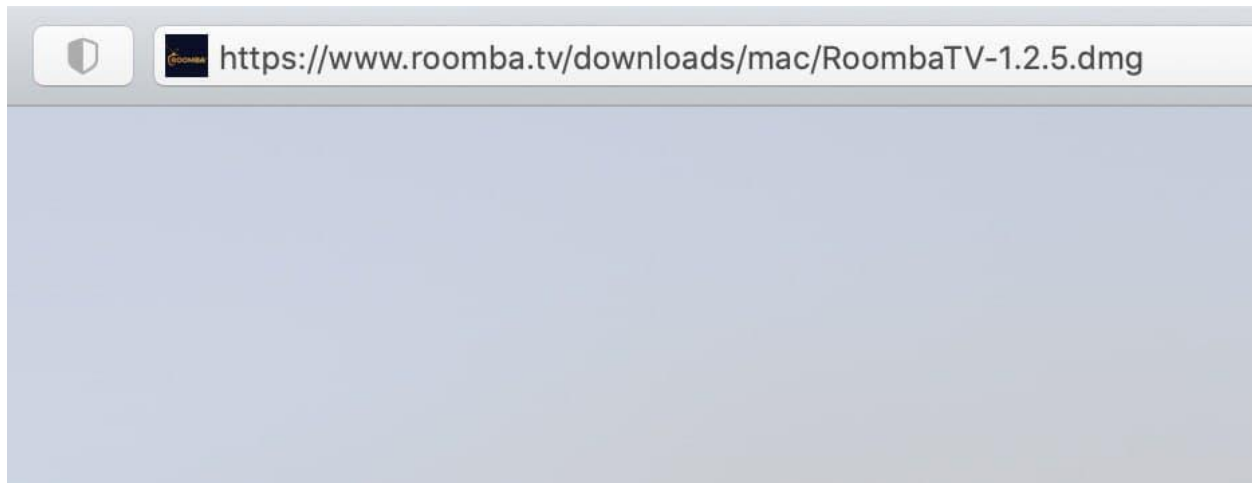

A simple user interface and a large collection of HD channels make us the finest IPTV service in the USA, Canada, Latin America and UK region. We broadcast thousands of live channels to stream premium HD content. Our existing customers praise the quality of the content we deliver through our IPTV service

Roomba TV lets you watch TV anywhere. We all know how annoying it could be when you want to download an app, software or program and you can't seem to find it in the Apple App Store and it is not preinstalled on your Mac. Hence, the reason why we made this guide to assist you download and navigate through Roomba TV for MAC with ease.

Downloading

Here are quick and easy steps to DOWNLOAD AND INSTALL Roomba TV on your Mac.

1. Launch your browser. You could use any browser of your choice; safari, Firefox, Google chrome or any other browser you prefer. For the full MAC experience however, we would recommend safari.

2. Go to our official website and find the download link for MAC OS
3. Type into your browser the download link for MAC OS from our official website
<https://www.roomba.tv/downloads/mac/RoombaTV-1.2.5.dmg>
4. You will be asked “Do you want to allow downloads on Roomba.tv”, Click Yes.
Note: When you are about to download, a warning may indicate that the file may harm your MAC, only go on to download this file if you trust its source. In this instance, the dmg file you are downloading is directly from our Official Roomba TV website so it is safe.
5. This will automatically lead to a Download File popup on your browser, this indicates that your download has begun

6. Since the Roomba TV app is light and weighs only 76.2 mb, it will take about a minute to download with average speed Wi-Fi.
7. Once download is complete, you will find your dmg file shaped like a disk in the downloads folder. You are now ready for installation.

Installation

1. Click the dmg file with the disk icon titled 'roomba tv' in your downloads.
2. You will be taken through an installation wizard / shortcut, with macOS indicating you should drag the Roomba TV app into the Application folder.
3. Simply drag the app onto the folder icon then let go of the mouse button to complete the process and Roomba TV will start copying to your applications.

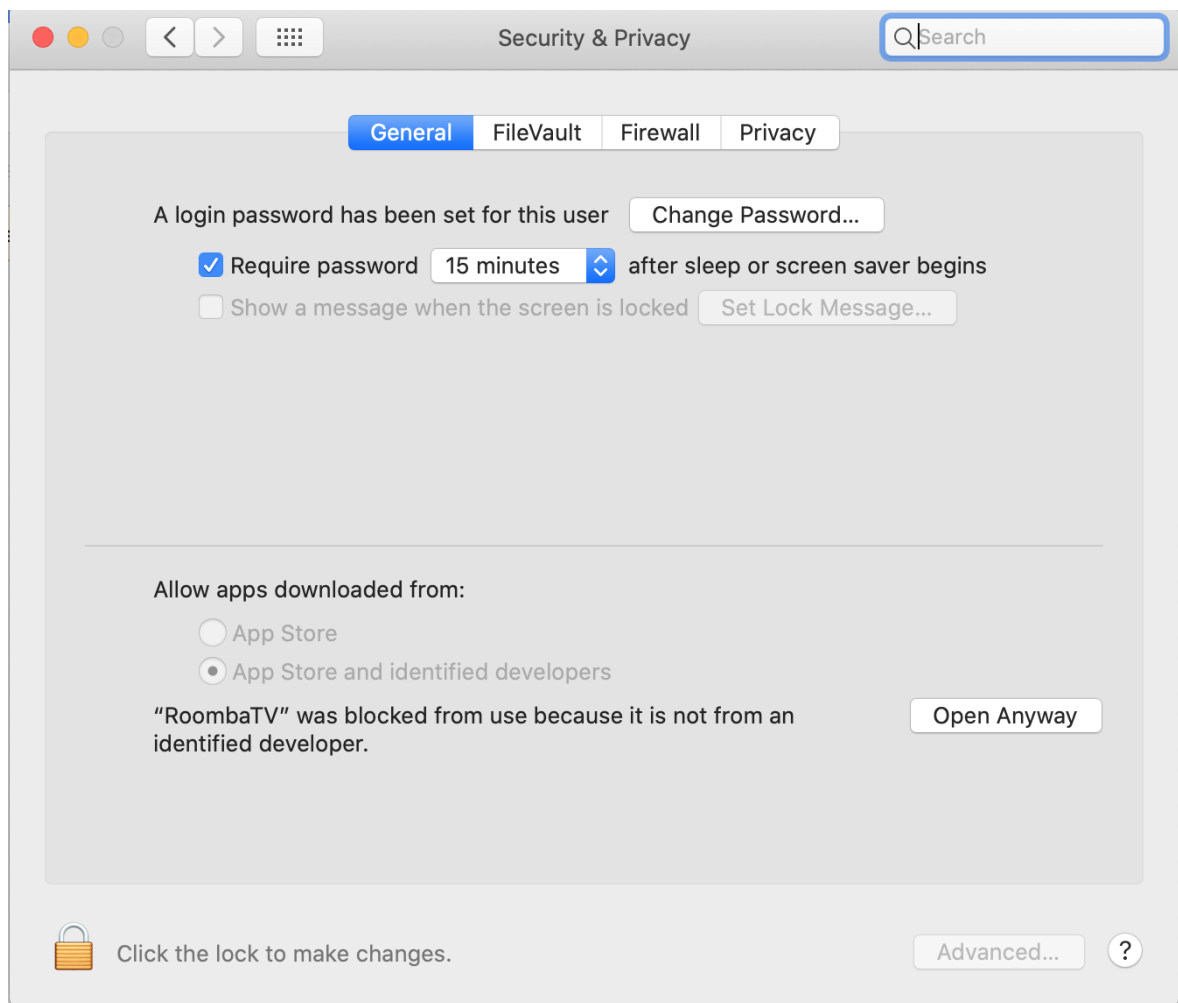

4. Now that the program is copied into your application folder, locate The Roomba TV icon in your Applications folder, double click to run.

5. If you see a warning stating that the app is from an 'unidentified developer', no worries you just need to tweak your security settings to be able to install the app.

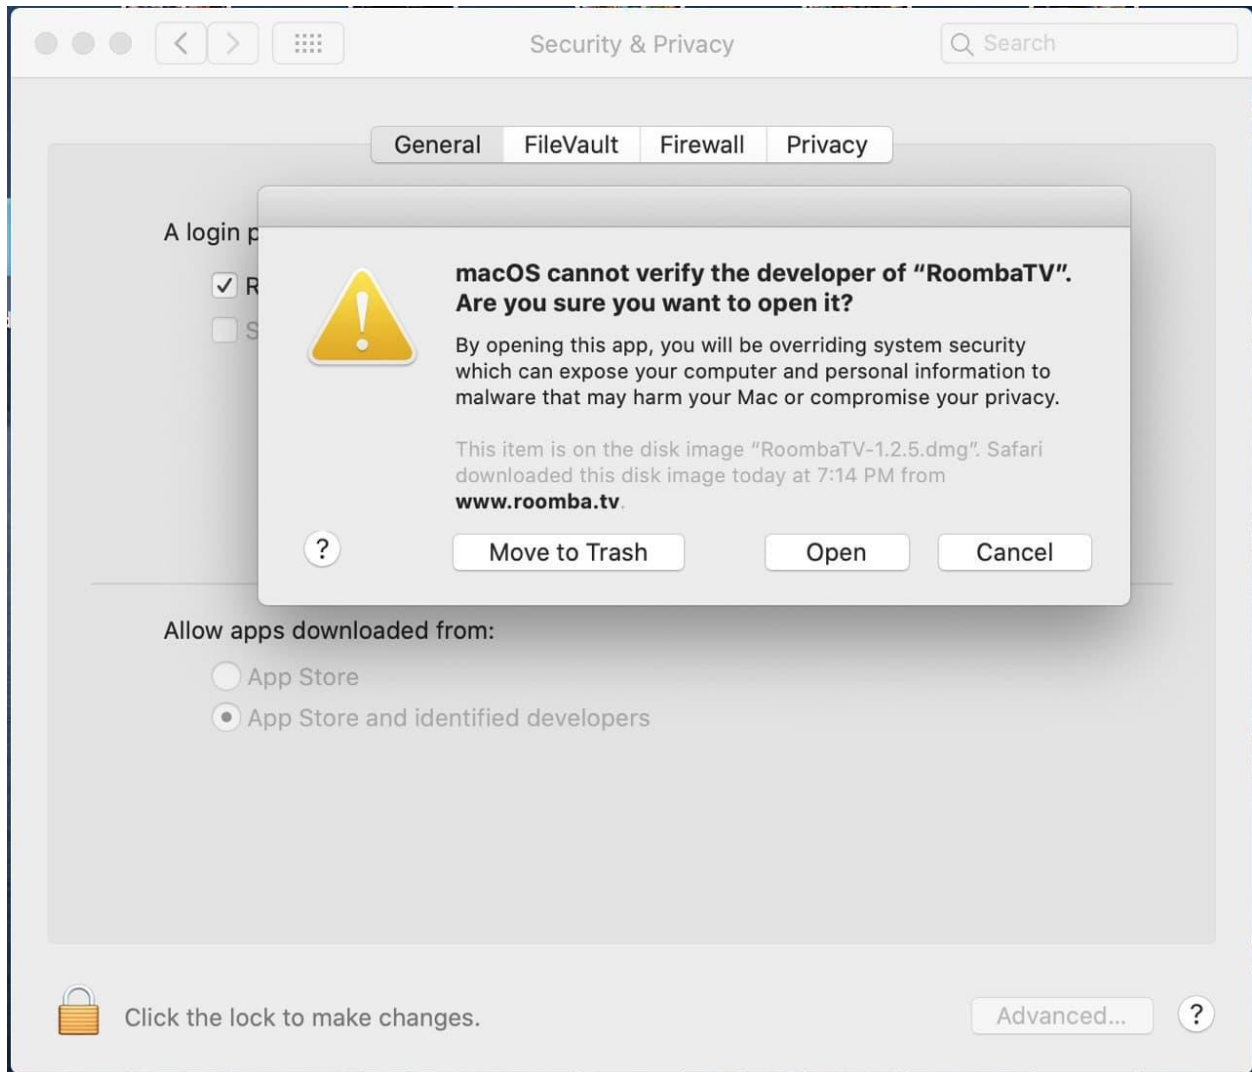

6. To change your privacy/security settings

- Click the Apple logo on the top left corner of your screen.
- You'll see an option called System preferences, Click on it
- Then go to security & privacy
- You will see that Roomba TV was blocked from use, if you download it directly from our Official Roomba TV website then have no fear.
- Select Open Anyway

7. Next, a message may popup saying MacOS cannot verify the developer of "RoombaTV", are you sure you want to open it? Click 'open' to complete the installation process.

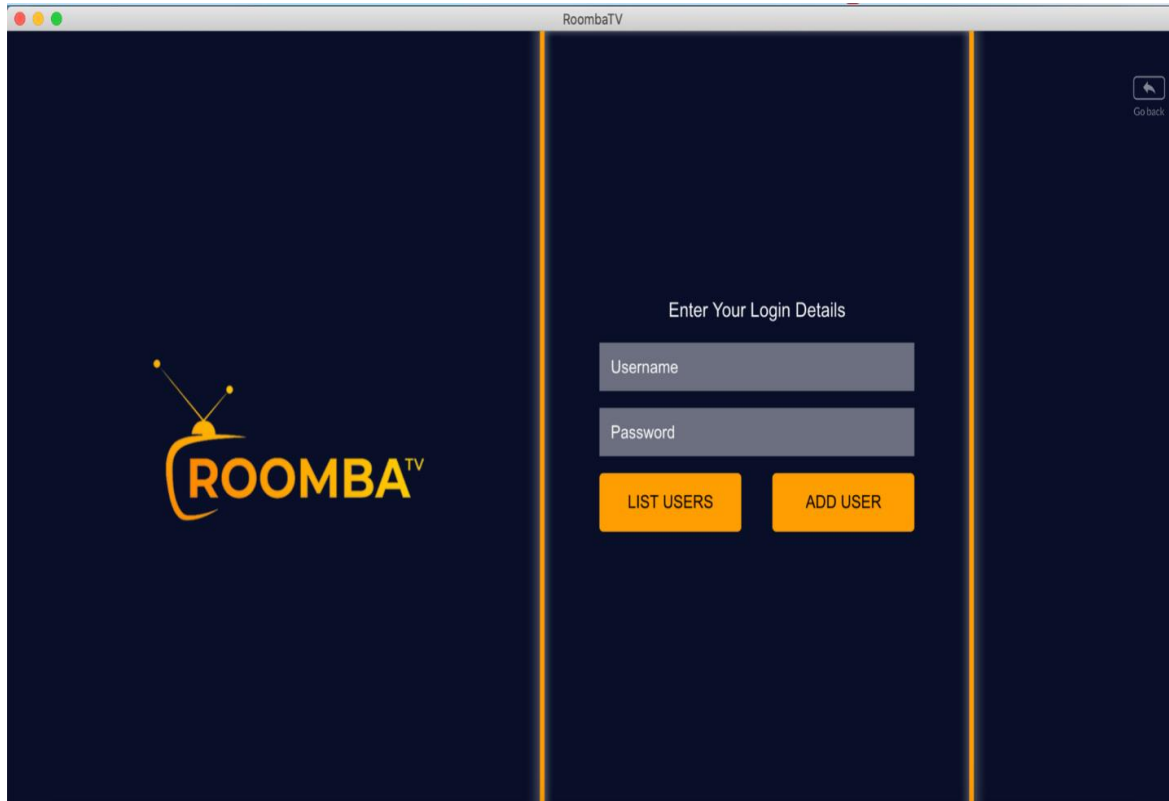

Congratulations ROOMBA TV is now installed on your MAC. You can drag it to your dock or to your desktop for easy access.

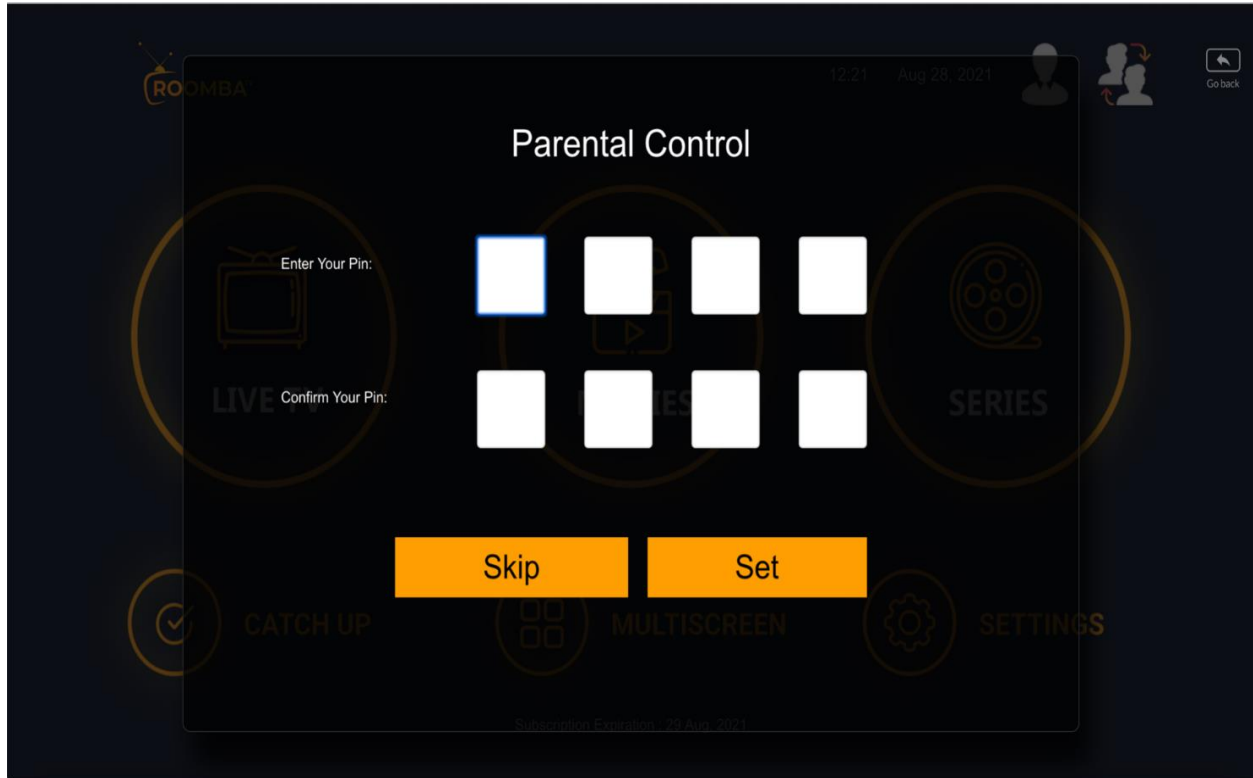

Login

After you have [Registered](#) and created an account on our website, You are now ready to **login to Roomba TV** and use it for the first time.

1. Enter login details by typing in your username and password details provided to you after the purchase.

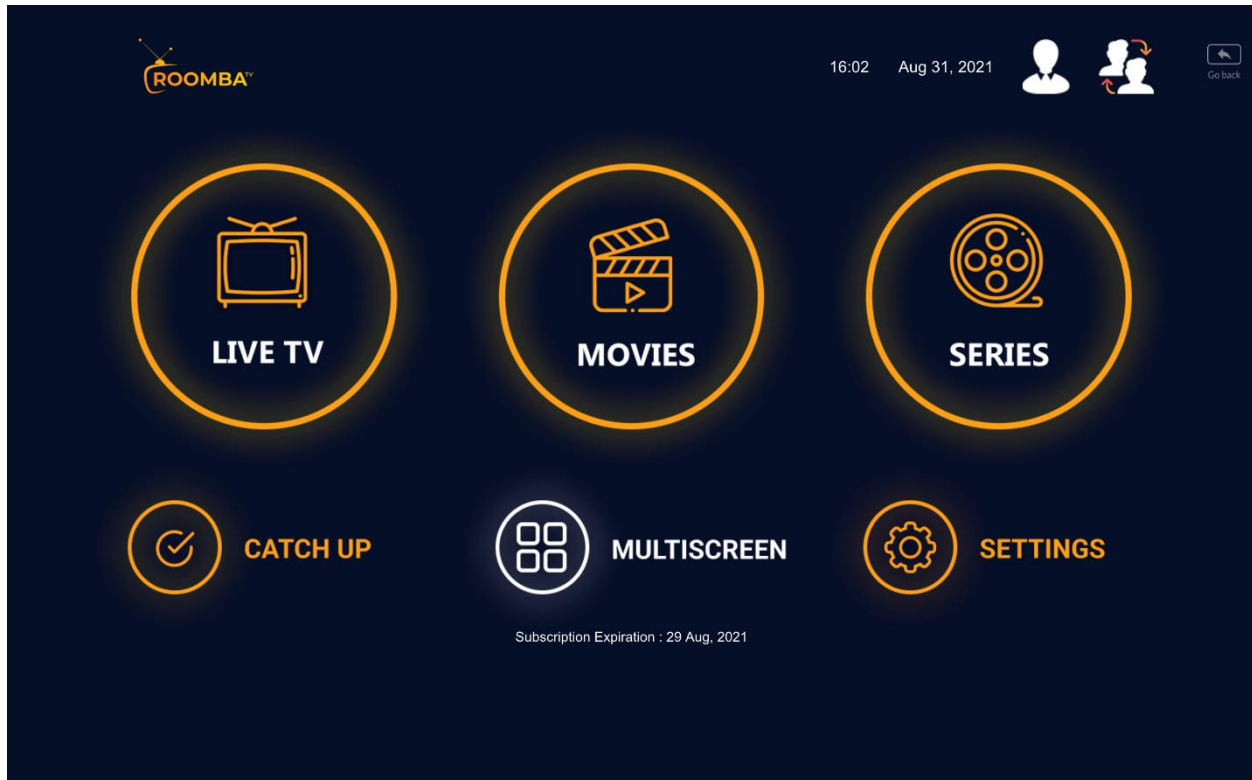

2. You will be presented with an option for parental control.
